The 2001 Annual Surveys consist of the Current Industrial Reports surveys, the Annual Survey of Manufactures, the Survey of Industrial Research and Development, and the Survey of Plant Capacity Utilization. We have determined that annual data collected from these surveys are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry. The data derived from these surveys, most of which have been conducted for many years, are not publicly available from nongovernmental or other governmental sources.

FOR FURTHER INFORMATION CONTACT:

William G. Bostic, Jr., Chief, Manufacturing and Construction Division, on (301) 457-4593.

These surveys will provide continuing and timely national statistical data on manufacturing for the period between economic censuses. The next economic censuses will be conducted for the year 2002. The data collected in these surveys will be within the general scope and nature of those inquiries covered in the economic censuses.

Current Industrial Reports
