[IL212-1b;FRL-7098-9]

Approval and Promulgation of Implementation Plans; Illinois**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The EPA is proposing to approve revisions to volatile organic compound (VOC) rules for Formel Industries, Incorporated (Formel). This flexographic printing facility is located in Cook County, Illinois. The revisions, submitted on March 21, 2001, consist of an adjusted standard from the Flexographic Printing Rule, 35 IAC 218.401(a), (b), and (c). The adjusted standard conditions include participation in the market-based emissions trading system, daily record keeping of inks and VOC content, conducting trials of compliant inks, and reviewing alternate control technologies. The Illinois Pollution Control Board approved this adjusted standard because the Board considers this to be the Reasonably Achievable Control Technology for Formel.

DATES: The EPA must receive written comments by January 11, 2002.**ADDRESSES:** You should mail written comments to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, IL 60604.

I. What Actions Are the EPA Taking Today?

The EPA is proposing to approve revisions to VOC rules for Formel of Cook County, Illinois. The revisions consist of an adjusted standard from the Flexographic Printing Rule, 35 IAC 218.401(a), (b), and (c). The adjusted standard conditions include participation in a market-based emissions trading system, daily record keeping of inks and VOC content, conducting trials of compliant inks, and reviewing alternate control technologies.

The market-based trading system will allow Formel to buy emissions allotments from companies which can reduce their VOC emissions at a lower cost than Formel can. The total VOC emissions of all participants meets the desired reductions for the non-attainment area. Limiting VOC emissions will help to reduce ozone because VOC can chemically react in the atmosphere to form ozone.

Approval and Promulgation of Implementation Plans; State of Kansas**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Kansas for the purpose of controlling volatile organic compound (VOC) emissions from commercial bakery ovens in Johnson and Wyandotte Counties, Kansas. In the final rules

section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
