D. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

IV. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: Section 29 Annual Report on Conditional Registrations.

ICR numbers: EPA ICR No. 0601.07, OMB No. 2070-0026.

ICR status: This ICR is a renewal of an existing ICR that is currently approved by OMB and is due to expire August 31, 2002.

Abstract: Section 29 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires the EPA Administrator to submit an annual report to Congress before February 16 of each year. This report includes the total number of applications for conditional registration filed under sections 3(c)(7)(B) and 3(c)(7)(C) of FIFRA during the previous fiscal year. Of those applications approved, the report must also identify the Administrator's findings in each case, the conditions imposed and any modification of such conditions in each case, and the quantities produced of such pesticides. All of this information, except production volume data, is obtained

from Agency files. EPA must rely on outside sources for production volume data. Therefore, EPA requires registrants with conditionally registered pesticides to provide production volume data from the preceding fiscal year. There are no forms or third-party disclosure requirements associated with this information collection activity.

V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this ICR is estimated to be 84 hours. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: Applicants for conditional pesticide registration whose applications are approved during a given fiscal year.

Estimated total number of potential respondents: 30.

Frequency of response: Annual.

Estimated total/average number of responses for each respondent: 1-2.

Estimated total annual burden hours: 84.

Estimated total annual burden costs: \$6,612.00.

VI. Are There Changes in the Estimates from the Last Approval?

The registrant burden estimate for this information collection has remained at 84 hours per year, with the number of respondents reporting and the number of conditional registrations each remaining the same. The individual burden per chemical for reporting has remained constant at 1.4 hours, while the burden per registrant has remained constant at 2.8 hours, with an average of two chemicals per registrant.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

D. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

IV. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: Foreign Purchaser Acknowledgment Statement of Unregistered Pesticides.

ICR numbers: EPA ICR No. 0161.09, OMB No. 2070-0027.

ICR status: This ICR is a renewal of an existing ICR that is currently

approved by OMB and is due to expire August 31, 2002.

Abstract: This information collection program is designed to enable the EPA to provide notice to foreign purchasers of unregistered pesticides exported from the United States that the pesticide product cannot be sold in the United States. Section 17(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires an exporter of any pesticide not registered under FIFRA section 3 or sold under FIFRA section 6(a)(1) to obtain a signed statement from the foreign purchaser acknowledging that the purchaser is aware that the pesticide is not registered for use in the United States and cannot be sold in the United States. A copy of this statement must be transmitted to an appropriate official of the government in the importing country. The purpose of the purchaser acknowledgment statement requirement is to notify the government of the importing country that a pesticide judged hazardous to human health or the environment, or for which no such hazard assessment has been made, will be imported into that country. This information is submitted in the form of annual or per-shipment statements to the EPA, which maintains original records and transmits copies thereof to appropriate government officials of the countries which are importing the pesticides.

V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this ICR is estimated to be 24,753 hours. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: All exporters of unregistered pesticides.

Estimated total number of potential respondents: 2,500.

Frequency of response: Annual or per-shipment.

Estimated total/average number of responses for each respondent: 1-2.

Estimated total annual burden hours: 24,753.

Estimated total annual burden costs: \$1,948,975.

VI. Are There Changes in the Estimates from the Last Approval?

The total annual respondent burden for this ICR is estimated to be 24,753 hours, an increase of 3,302 hours over the present ICR. This slight increase in respondent burden is due to three factors: (1) EPA has revised the burden estimate for the purchaser acknowledgment requirement to more accurately reflect the numbers of foreign purchaser acknowledgment statements (FPASs) submitted to EPA under the revised policy; (2) the burden estimate includes requirements imposed by the export labeling requirement, due to the new requirement in the PRA to estimate the cost of third party notifications, and (3) costs have increased due to more realistic labor rates supplied by the Bureau of Labor Statistics, which more accurately reflect the costs borne by the exporters of pesticide products.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
