4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

IV. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: FIFRA Section 24(c) Special Local Need Registrations.

ICR numbers: EPA ICR No. 0595.08, OMB No. 2070-0055.

ICR status: This ICR is a renewal of an existing ICR that is currently approved by OMB and is due to expire August 31, 2002.

Abstract: This data collection program is designed to provide the EPA with the necessary data to review approval of a state issued pesticide registration. The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), section 24(c) authorizes the States to register additional uses of federally registered pesticides for distribution and use within the State to meet a special local need (SLN). A state-issued registration under FIFRA section 24(c) is deemed a federal registration for the purposes of the pesticide's use within the State's boundaries. A State must notify EPA, in writing, of any action it takes, i.e., issues, amends, or revokes a state registration. The Agency has 90 days to disapprove the registration. In such cases, the State is responsible for notifying the affected registrant.

V. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide

information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this ICR is estimated to be 37,083 hours. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: State and territorial governments (the 50 states plus Washington, D.C., Puerto Rico, the U.S. Virgin Islands, Guam, and the islands of the Pacific Territory and American Samoa).

Estimated total number of potential respondents: 60.

Frequency of response: Annual.

Estimated total/average number of responses for each respondent: 1-3.

Estimated total annual burden hours: 37,083.

Estimated total annual burden costs: \$3,557,338.

VI. Are There Changes in the Estimates from the Last Approval?

The total estimated annual respondent burden for this ICR is 37,083 hours, an increase of 12,479 hours over the previous ICR. The average number of applications under this program has increased from 350 per year under the previous ICR to 526 per year for the past 3 years. In addition, costs have increased from \$2,360,287 to \$3,557,338 due to more realistic labor rates supplied by the Bureau of Labor Statistics.

VII. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval

process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
