

Director of Financial Management at the addresses specified under System Location.

NOTIFICATION PROCEDURES:

Any individual may request information regarding this system of records or information as to whether the system contains records pertaining to him or her from the Director, Financial Management, Forest Service, U.S. Department of Agriculture, Washington, DC, or the appropriate Director of Financial Management at the address identified under System Location. If the specific location of the records is not known, the individual should address a request to the Director of Financial Management in Washington, DC. The request should be in writing and should contain name, address, and particulars of the claim.

RECORD ACCESS PROCEDURES:

Use same procedures as those prescribed in Notification Procedures.

CONTESTING RECORD PROCEDURES:

Use same procedures as those prescribed in Notification Procedures.

RECORD SOURCE CATEGORIES:

Information in this system comes primarily from the claimant, the claimant's or debtor's attorney or legal representative, witnesses, agency employees, and local and federal investigation personnel.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

Cooperative State Research, Education, and Extension Service

National Research Initiative Competitive Grants Program

AGENCY: Cooperative State Research, Education, and Extension Service (CSREES).

ACTION: Notice to Re-submit Applications for the FY 2002 National Research Initiative Competitive Grants Program (NRICGP).

SUMMARY: Applicant institutions that have not received confirmation of receipt of NRICGP proposals sent in response to the November 15, 2001, deadline are requested to re-submit their proposals. Re-submitted proposals are due no later than close of business on December 21, 2001.

SUPPLEMENTARY INFORMATION: On August 16, 2001, (66 FR 43048) CSREES

announced the availability of the FY 2002 solicitation for applications which is entitled the "NRI Program Description and Guidelines for Proposal Preparation" for the National Research Initiative Competitive Grants Program. The solicitation invited applications for competitive grant awards in agricultural, forest, and related environmental sciences for FY 2002, and required that proposals be postmarked or delivered on or before dates provided in the table at the end of the notice. Proposals for the following Program Areas were due on or before November 15, 2001:

- Plant Responses to the Environment, Code 22.1
- Managed Ecosystems, Code 23.1
- Soils and Soil Biology, Code 25.0
- Watershed Processes and Water Resources, Code 26.0
- Improving Human Nutrition for Optimal Health, Code 31.0
- Biology of Weedy and Invasive Plants, Code 51.9

Because of problems with mail delivery at the time of the November 15th deadline, CSREES is not confident it received all applications. CSREES thus requests that applicant institutions that have not received confirmation of receipt of applications submitted to meet the November 15, 2001, NRICGP deadline re-submit applications by close of business on December 21, 2001. To avoid duplicate submissions, CSREES will confirm delivery with the institutional Authorized Organization Representative (AOR) of applications delivered successfully at the November 15th NRICGP deadline. If the submitting institution is not contacted by CSREES, the institution should assume that the application(s) were not received and should re-submit them.

DATES: Re-submitted proposals are due no later than close of business on December 21, 2001. All other NRICGP deadlines are retained as published in the FY 2002 Program Description.

ADDRESSES: An original and 14 copies of the re-submitted proposals must be sent via commercial overnight delivery service only, and shipped to the following address: NRI; c/o Proposal Services Unit; Cooperative State Research, Education and Extension Service; U.S. Department of Agriculture; Room 1307, Waterfront Centre; 800 9th Street, SW.; Washington, DC 20024; telephone: (202) 401-5048.

FOR FURTHER INFORMATION CONTACT: Ms. Janice Donatone, Team Leader, Proposal Services Unit; phone: (202) 401-5048; E-mail: psb@reeusda.gov.

Additional information concerning this issue is posted on the Agency's Web site at: www.reeusda.gov.

Done at Washington, DC this 7th day of December, 2001.

Gary Cunningham,

Associate Administrator, Cooperative State Research, Education, and Extension Service.

Forest Service

Livestock Grazing Permit Re-issuance on the Horse Butte Allotment Gallatin National Forest, Gallatin County, Montana

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare environmental impact statement.

SUMMARY: The USDA, Forest Service, will prepare an environmental impact statement (EIS) to disclose the environmental effects of continued livestock grazing of up to 263 cow/calf pairs and horses on a Gallatin National Forest grazing allotment located on the Horse Butte peninsula near West Yellowstone, Montana (hereafter referred to as the Horse Butte Allotment). Grazing would occur from June through mid-October annually under a seasonally deferred rotation schedule. Grazing permits establish the amount, duration, location, and circumstances (management constraints) under which grazing will be allowed on the National Forest.

DATES: Written comments and suggestions should be received within 30 days following publication of this notice.

ADDRESSES: Submit written comments and suggestions on this proposal or a request to be placed on the project mailing list to Tris Hoffman, Hebgen Lake Ranger District, Gallatin National Forest, PO Box 520, West Yellowstone, Montana, 59758.

FOR FURTHER INFORMATION CONTACT: Tris Hoffman, EIS Team Leader, Hebgen Lake Ranger District, Phone (406) 823-6966.

SUPPLEMENTARY INFORMATION: The Horse Butte allotment covers approximately 2065 acres of the Horse Butte Peninsula between the Grayling and Madison Arms of Hebgen Lake. The allotment is located approximately 8 miles northwest of West Yellowstone, Montana. It is bordered by private land along much of its eastern boundary. The allotment is comprised of six pastures. Five of the six pastures are currently, and proposed to be, managed under a seasonally deferred rotation system, 58% of which is primary range and

about 37% is secondary range. The sixth pasture, the Grayling Unit, is an on-off pasture. This pasture involves 3 separate parcels of Forest Service property (totaling 65 acres) that are used in combination with adjacent private property. The on-off parcels are currently authorized as continuous grazing.

Comments will be used to identify issues that should be addressed in environmental analysis. The analysis is being conducted in compliance with the National Environmental Policy Act (NEPA) and is designed to inform the Responsible Official of the potential environmental consequences of continued livestock grazing on this allotment. The Responsible Official for this decision is the Hebgen Lake District Ranger. The analysis will also advise of any changes in grazing practices that should be considered.

Cattle grazing around the West Yellowstone area is recognized to be controversial since it influences management practice adopted to prevent the transmission of brucellosis to cattle from bison migrating out of Yellowstone Park (Interagency Bison Management Plan, 12/2000).

The purpose of proposing re-issuance of a livestock grazing permit on the Horse Butte allotment is to continue to allow for this economic activity. Livestock grazing has been an important use of lands within and around the Gallatin National Forest since the 1800's. Grazing has been authorized since the formation of the Gallatin National Forest in the early 1900's and it continues to be an important part of the region's economy today. The Gallatin Forest Plan (1987) set goals and objectives for management of rangeland habitats and livestock grazing. The applicable management area goal for this area is to provide forage for livestock consistent with meeting grizzly bear mortality reduction goals as established by the Interagency Grizzly Bear Committee (Forest Plan, MA 15, pg. III-47). The decision to be made now is whether to re-issue the livestock grazing permit and if so, under what conditions.

The Forest Service will consider a range of alternatives. One of these will be the "no action" alternative, in which none of the proposed activities would be implemented. The EIS will analyze the direct, indirect, and cumulative environmental effects of the alternatives. Past, present, and projected activities on both private and National Forest lands will be considered.

The Forest Service will be seeking information, comments, and assistance from Federal, State, and local agencies and other individuals or organizations

who may be interested in or affected by the proposed action. No public meetings are scheduled at this time. Comments from the public and other agencies will be used in preparation of a Draft EIS.

The Draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and available for public review in the fall of 2003. At that time, the EPA will publish a Notice of Availability of the Draft EIS in the **Federal Register**. The comment period on the Draft EIS will be 45 days from the date the EPA's notice of availability appears in the **Federal Register**. It is very important that those interested in this proposal participate at that time. The Final EIS is scheduled to be completed by summer of 2004.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 30-day scoping comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in developing issues and alternatives. To assist the Forest Service in identifying and considering issues, comments should be as specific to this proposal as possible. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

I am the responsible official for this environmental impact statement. My address is Gallatin National Forest, PO Box 130, Federal Building, Bozeman, MT 59771.

Dated: December 6, 2001.

Rebecca Heath,

Forest Supervisor, Gallatin National Forest.

Shasta County Resource Advisory Committee (RAC)

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Shasta County Resource Advisory Committee (RAC) will meet on January 9, 2001 in Redding, California. The purpose of the meeting is to discuss the selection of Title II projects under Public Law 106-393, H.R. 2389, the Secure Rural Schools and Community Self-Determination Act of 2000, also called the "Payments to States" Act.

DATES: The meeting will be held on January 9, 2002 from 8 a.m. to 12 p.m.

ADDRESSES: The meeting will be held at the Shasta-Trinity National Forest Headquarters Conference Room, 2400 Washington Ave., Redding, California.

FOR FURTHER INFORMATION CONTACT: Jim Pena, Designated Federal Official, USDA, Shasta-Trinity National Forest, 2400 Washington Ave., Redding, CA 96001. Phone: (530) 242-2201. E-mail: jpena@fs.fed.us.

SUPPLEMENTARY INFORMATION: This will be the second meeting of the committee, and will focus on developing an overall strategy for selecting Title II projects. The meeting is open to the public. Public input opportunity will be provided and individuals will have the opportunity to address the committee at that time.

Dated: December 4, 2001.

J. Sharon Heywood,

Forest Supervisor.
