BILLING CODE 4830-01-P

52555-52560). The Postal Service requested comments by November 15, 2001, and by that date received two comments. Both were from the same publisher using the publishers' periodical rates.

Both commenters stated that if the rates were to be implemented in January 2002, not enough time would be allowed to change software, either company specific proprietary or industry-wide software. Both suggested that the rates not be implemented before March 31, 2002, at the earliest. Both stated that implementation concurrent with the domestic rates in R2001-1 would be appropriate. One commenter noted the dramatic increase in some rate cells for items to Mexico and questioned why these rates would be higher than rates to more distant countries.

The Postal Service understands that many mailers will be required to make software changes. The Postal Service itself must make changes. However, the Postal Service believes that it has provided adequate time for mailers to make changes given that notice of the proposed change was given on October 16, 2001.

Rates are based on the cost of providing service to the countries in a rate group. Where there is more than one country in a rate group, the costs are an average. Where there is a single country in a rate group, the rate reflects

the cost of providing service to that country. The publishers' periodical rates to Mexico are currently higher than the rates to Canada and all other countries. Separating the rates for all other countries into three rate groups does not alter the costs of providing service to Mexico. It should be noted that while the first two weight increments for Mexico increased by 25 percent, this is a smaller increase than the increases for the same weight increments for rate groups 3, 4, and 5. The rate increase for Mexico is not out of line with the overall increase to other countries.

After reviewing and considering the comments received, the Postal Service adopts the following postage rates and amends the *International Mail Manual* (IMM), which is incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 20.1.
