BILLING CODE 6730-01-P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part

225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than January 10, 2002.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166-2034:

1. *Mercantile Bancorp, Inc.*, Quincy, Illinois; to acquire 9 percent of the voting shares of NorthStar Bancshares, Inc., Kansas City, Missouri, and thereby indirectly acquire voting shares of NorthStar Bank, N.A., Kansas City, Missouri.

B. Federal Reserve Bank of Kansas City (Susan Zubradt, Assistant Vice President) 925 Grand Avenue, Kansas City, Missouri 64198-0001:

1. *Buerge Bancshares, Inc.*, Joplin, Missouri; to acquire 100 percent of the voting shares of Grand Lake Bancorp, Inc., Tulsa, Oklahoma, and thereby indirectly acquire Grand Lake Bank, Tulsa, Oklahoma, and Sarcouxie Bancorp, Inc., Joplin, Missouri, and thereby indirectly acquire voting shares of Sarcouxie National Bank of Sarcouxie, Sarcouxie, Missouri.

Board of Governors of the Federal Reserve System.

Dated: December 11, 2001.

Jennifer J. Johnson,

Secretary of the Board.

BILLING CODE 6210-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-02-17]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Childhood Lead Poisoning Prevention Programs OMB No. 0920-0282—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC). Lead poisoning is the most common and societally devastating environmental disease of young children in the United States. The adverse health effects of lead on young children can be profound. Severe lead exposure can cause coma, convulsions, and even death. Lower levels of lead, which rarely cause symptoms, can result in decreased intelligence, developmental disabilities, behavioral

disturbances, and disorders of blood production. In 1992, CDC National Center for Environmental Health (NCEH) began the National Childhood Lead Surveillance Program. The goals of the childhood lead surveillance program are to (1) establish childhood lead surveillance systems at the state and national levels; (2) use surveillance data to estimate the extent of elevated blood-lead levels among children; (3) assess the follow-up of children with elevated blood-lead levels; (4) examine potential

sources of lead exposure; and (5) help allocate resources for lead poisoning prevention activities. In 2001, CDC awarded 60 grants and cooperative agreements to fund childhood lead poisoning prevention programs. The quarterly report is designed to collect blood lead screening and test confirmation data from CDC-funded programs. The quarterly report consists of four data tables requiring the following information: (1) The number of children screened by age and

Medicaid enrollment status; (2) The number of children screened and confirmed by blood lead level; (3) The number of children screened by ethnicity; and (4) The number of children screened by race. OMB approval for this package will expire on January 31, 2002. This request is for a 3-year revision with a change in the burden hours. There is no cost to respondents.

Type of respondents	Number of respondents	Number of responses/respondent	Average burden/re-sponse (in hrs.)	Total burden (in hrs.)
State and Local Grant and Cooperative Agreement Programs	60	4	2	480
Total				480

Dated: December 7, 2001.

Nancy E. Cheal,

Acting Associate Director for Policy, Planning and Evaluation Centers for Disease, Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-02-18]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090. CDC is requesting an emergency clearance for this data collection and that OMB act on this package 3 weeks after the publication of this **Federal Register** Notice.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 14 days of this notice.

Proposed Project: Program Evaluation of the Distribution of Antimicrobial Agents to Prevent Anthrax, Assessment of Adverse Events and Adherence—New—National Center for Infectious Disease (NCID), Centers for Disease Control and Prevention. A 60-day course of antimicrobial prophylaxis has been recommended for approximately 7,500 persons with exposures to Bacillus anthracis related to bioterrorist attacks. To provide the antimicrobial agents necessary to meet this need, the National Pharmaceutical Stockpile (NPS) and the Centers for Disease Control and Prevention (CDC) has

continued to support state and local health departments in responding to a nationwide public health emergency. This support has consisted of both the provision of additional antimicrobial agents as well as technical assistance from CDC to ensure effective transfer and distribution of supplies and medications, assess ongoing needs, and assist in management of other issues arising from the distribution of stockpile materials.

In order to evaluate this program, a telephone interview will be administered to persons who were recommended to receive 60 days of antibiotics after potential exposure to anthrax. The purpose of this interview will be to assess the provision of stockpile medications at 60 days after initiation of prophylactic campaigns for inhalation anthrax, assess the number of antibiotic-related adverse events, and determine the adherence to antimicrobial regimens. Results of this evaluation will be an important tool to determine the level and characteristics of technical assistance that the NPS and CDC will need to provide with any future anthrax post-exposure prophylaxis campaigns. This systematic approach to evaluation of an essential organization practice in public health will be used to improve public health actions. There is no cost to the respondent.
