FPA section 305—Officials Dealing in Securities-Interlocking Directorates defines the annual reporting requirements for public utility officers and directors to report office and director positions they hold with, among other entities, a public utility's top twenty customers of electric energy. FPA section 305(c)(2) states "each public utility shall publish a list, pursuant to rules prescribed by the Commission * * * This statutory requirement to publish the customers" list allows the public the opportunity to compare the customers listed with the interlocking directorate information filed in FERC Form 561 (1902-0099), by public utility officers and directors, for identification of positions where the relationship may be employed, for example to the detriment of the utility, or the public interest. The required public utility filers, the necessary filing information, the requirement to publish the information and the filing deadline are all specifically mandated by the FPA. The Commission is not empowered to amend or waive these statutory requirements.
