

any other applicable section of the FPA. If the project's prior license waived the applicability of Section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to Section 15 of the FPA, notice is hereby given that an annual license for Project No. 2064 is issued to Flambeau Hydro, LLC for a period effective December 1, 2001, through November 30, 2002, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before December 1, 2002, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under Section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to Section 15 of the FPA, notice is hereby given that Flambeau Hydro, LLC is authorized to continue operation of the Winter Project No. 2064 until such time as the Commission acts on its application for subsequent license.

Marseilles Hydro Power LLC; Notice of Rejection of Notices of Intent To File Competing Applications and Waiver of Section 4.36

December 11, 2001.

Pursuant to the notice of acceptance of application for the Marseilles Hydroelectric Project, issued August 16, 2001 by the Federal Energy Regulatory Commission (Commission), the following filings have been received: (1) Marseilles Land and Water Company (MLWC) September 18, 2001 filing for waiver of the requirements of § 4.36 of the Commission's regulations establishing deadlines for the filing of applications with an initial preliminary permit application; and (2) the three October 15, 2001 notices of intent to file competing development applications filed by MLWC, Fountainhead Properties LLC, and City of Oglesby, Illinois, respectively.

Background

On May 14, 2001, Marseilles Hydro Power LLC (MHP) filed its application for license for the Marseilles Hydroelectric Project, FERC No. 12020, pursuant to the notice of intent it had filed in response to the Commission's notice of filing of an application for preliminary permit, FERC Project No.

11863, by MLWC. The Commission issued a public notice that MHP's application for license for Project No. 12020 had been accepted for filing on August 16, 2001. The above mentioned subsequent filings were filed with the Commission.

Commission Conclusions

The Commission has previously addressed the situation of when an application for license may be filed in competition with an initial permit application.¹ The Commission has clearly specified that license applications filed in competition with an initial permit application are to be filed in response to the notice of the initial preliminary permit application, not subsequent notices of a competing license application as claimed by MLWC.

Therefore, the Commission rejects the pleadings of (1) MLWC's filing for waiver of the requirements of § 4.36; and (2) the three October 15, 2001 notices of intent to file competing development applications filed by MLWC, Fountainhead Properties LLC, and City of Oglesby, Illinois, respectively.

This notice constitutes final agency action. Requests for rehearing by the Commission may be filed within 30 days of the date of this issuance of this notice, pursuant to 18 CFR 385.713.
