Title: Utilization of Food and Nutrition Information Center (FNIC) Resources by Personnel at Schools Receiving USDA Funds for Child Nutrition Programs.

OMB Number: Not yet assigned.

Expiration Date: N/A.

Type of Request: Approval for new data collection.

Abstract: The collection of information using a one-time, voluntary customer survey regarding utilization of FNIC resources will provide personnel in schools receiving USDA funds for

Child Nutrition Programs an opportunity to comment on their current usage of FNIC resources and the types of resources that are of greatest value to them. This information will assist FNIC staff in continually improving its resources to meet the usage patterns and needs of this target audience.

FNIC does not have a formal means of determining the use of FNIC resources (including the website) by personnel at schools receiving USDA funds for Child Nutrition Programs. To collect this information, FNIC proposes to provide attendees of selected education related conferences with a password to access a one-time, voluntary, electronic FNIC Resources usage survey. The information collected from this survey will be used to evaluate current FNIC resources and assist in planning and managing future projects. The Utilization of FNIC Resources Survey is comprised of seven questions where customers report on their use of FNIC resources. Some examples of survey components include: "Please rate the usefulness of the following FNIC resources" and "How often do you think you will use FNIC resources in the next 12 months?" The survey also asks for customers to report which websites they are currently accessing for nutrition information as well as to provide any additional comments they deem appropriate.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 15 minutes per response.

Respondents: Educators and related personnel involved in child nutrition and child nutrition education. Respondents will be recruited at education related conferences.

Estimated Number of Respondents: 250 per year.

Community facilities loans assist rural communities to develop facilities that are essential for their communities.
