During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an antidumping duty order under section 351.211 or a determination under section 351.218(f)(4) to continue an order or suspended investigation (after sunset review), the Secretary, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine whether antidumping duties have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Interested parties must submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1675(a)), and 19 CFR 351.221(c)(1)(i).

Extruded Rubber Thread From Malaysia: Notice of Extension of Time Limits for Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is extending the time limits of the final results of the antidumping duty administrative review on extruded rubber thread from Malaysia. The review covers three producers/exporters of the subject merchandise to the United

States. The period of review is October 1, 1999, through September 30, 2000.

EFFECTIVE DATE: December 19, 2001.

FOR FURTHER INFORMATION CONTACT: Irina Itkin or Elizabeth Eastwood, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, at (202) 482-0656 or (202) 482-3874, respectively.

Postponement of Final Results of Administrative Review: The Department published the preliminary results of the 1999-2000 administrative review of the antidumping duty order on extruded rubber thread from Malaysia on November 6, 2001 (66 FR 56057). The current deadline for the final results in this review is March 6, 2002. We must conduct sales and cost verifications of the information provided by the respondents. Due to scheduling problems with one of the companies participating in this review, we are unable to complete verification before March 2002. Because we need additional time for verification, we have extended the deadline until May 6, 2002.

This extension is in accordance with section 751(a)(3)(A) of Tariff Act of 1930, as amended by the Uruguay Round Agreements Act, and 19 CFR 351.213(h)(2).

Dated: December 12, 2001.

Louis Apple,

Acting Deputy Assistant Secretary for Import Administration.

Marine Mammals; Notice of Intent to Prepare an Environmental Assessment for Issuing a Bowhead Whale Subsistence Quota to the Alaska Eskimo Whaling Commission (AEWC) for the years 2003 through 2007

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent to prepare an Environmental Assessment (EA); request for written comments.

SUMMARY: NMFS announces its intention to prepare an EA, in accordance with the National Environmental Policy Act, to assess the impacts of issuing a subsistence quota for bowhead whales to the AEWC for the years 2003 through 2007. NMFS solicits comments and information to facilitate this analysis.

DATES: Comments and information must be postmarked by January 31, 2002.

ADDRESSES: Written comments should be sent to Chief, Marine Mammal Division (F/PR2), Office of Protected Resources, National Marine Fisheries Service, 13th Floor, 1315 East-West Hwy, Silver Spring, MD 20910. Please mark the outside of the envelope with "Comments on Bowhead Whale Analysis." Comments will not be accepted if submitted via e-mail or Internet.

FOR FURTHER INFORMATION CONTACT: Emily Hanson Menashes, NMFS Office of Protected Resources, 301-713-2322.

SUPPLEMENTARY INFORMATION: At its 1997 annual meeting, the International Whaling Commission (IWC) approved a 5-year quota for the aboriginal take of the Western arctic stock of bowhead whales. The quota allows for a combined total of up to 280 whales to be landed in the years 1998 through 2002 by Alaskan and Russian natives. For each of these years, the number of bowhead whales struck shall not exceed 67, except that any unused portion of a strike quota from any year shall be carried forward and added to the strike quota of any subsequent year, provided that no more than 15 strikes shall be added to the strike quota for any one year.

The basis for the quota was a joint request by the Russian Federation and the United States, showing that the needs of both countries' Native groups

could be met with an annual average of 56 landed bowhead whales (or a total of 255 for the Alaska Eskimos and 25 for the Chukotka people over the 5-year period). The annual strike limits and quotas for whales are determined at the beginning of each year after consultation with the Russian government.

At the 52nd annual meeting of the IWC, held in June and July of 2000, the IWC Scientific Committee proposed a structure for block quotas for the bowhead whale aboriginal subsistence hunt to be used as part of the Scientific Committee's proposed revisions to the Aboriginal Whaling Management Plan. This structure calls for five-year blocks with an inter-annual carry-over allowance of up to 50 percent of unused strikes, including strikes from the previous quota block (IWC/52/AS7). The Commission agreed with the proposal from the Scientific Committee in the context of trials.

At the 53rd IWC annual meeting, held in July of 2001, the Commission agreed with the Scientific Committee's recommendations with respect to carry-over. The Scientific Committee also noted that if, under a recommended Strike Limit Algorithm, current aboriginal subsistence need is met, then a revised Schedule paragraph might specify a block strike limit quota with an annual cap on strikes. The Scientific Committee also reiterated its 1999 advice for the Bering-Chukchi-Beaufort Seas stock of bowhead whales, i.e., that it is very likely that a catch limit of 102 whales or less would be consistent with the requirements of the Schedule (IWC/53/4, Report of the Scientific Committee).

Alaska Eskimos have been taking bowhead whales for at least 2,000 years. Alaska Native subsistence hunters take less than one percent of the population of bowhead whales per year. Since 1977, the number of takes has ranged between 14 and 77 per year, depending in part on changes in management strategy and in part on higher estimates of bowhead whale abundance in recent years (NMFS Alaska Marine Mammal Stock Assessments, 2000).

The IWC's 54th annual meeting is scheduled for May of 2002. NMFS is preparing an EA on issuing a quota to the AEWC for a subsistence hunt on bowhead whales for the years 2003 through 2007 in the event that the IWC renews a 5-year aboriginal subsistence quota for bowhead whales. NMFS will evaluate the following four alternatives:

Alternative 1—Grant the AEWC a quota that meets the documented need of Alaskan Eskimos for 255 landed whales over 5 years (2003 through 2007), with an annual strike quota of 67
