Description: The Office of Workers' Compensation Programs (OWCP) administers the Longshore and Harbor Workers' Compensation Act. This Act provides benefits to workers injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. Pursuant to section 14(d) of the Act, and 20 CFR 702.251, if an employer controverts the right to compensation, he shall file with the district director in the affected compensation district on or before the fourteenth day after he has knowledge of the alleged injury or death, a notice, in accordance with a form prescribed by the Secretary, stating that the right to compensation is controverted.

Form LS-207 is used by insurance carriers and self-insured employers to controvert claims under the act. OWCP district offices use this information to determine the basis for not paying benefits in a case. It also informs the injured claimant of the reason(s) for not paying compensation benefits. If the information were not collected, our

district offices and claimants would have no way of knowing the reason(s) for controverting the right to compensation.
