

ADDRESSES: For further information, to provide written comments, or to be placed on the mailing list, contact Brian Amme, Acting Project Manager, Bureau of Land Management, P.O. Box 12000, Reno, Nevada 89520-0006; E-mail brian_amme@nv.blm.gov; telephone (775) 861-6645. Comments will be available for public inspection at the BLM Nevada State Office, 1340 Financial Blvd.; Reno, Nevada 89502.

Individual respondents may request confidentiality. If you wish your name and/or address withheld from public review or disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written or e-mailed comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: This national, programmatic EIS will provide a comprehensive cumulative analysis of BLM conservation and restoration treatments involving vegetation communities, watersheds and wildlife habitats.

- It will also consider state-specific, reasonably foreseeable activities, including hazardous fuels reduction treatments.

- It will address human health risk assessments for proposed use of new chemicals on public lands.

- Restoration activities may include but are not limited to prescribed fire, riparian restoration, native plant community restoration, invasive plants and noxious weeds treatments, understory thinning, forest health treatments, or other activities related to restoring fire-adapted ecosystems.

The EIS is not a land-use plan or a land-use plan amendment. It will provide a comprehensive programmatic NEPA document to allow effective tiering and serve as a baseline cumulative impact assessment for other new, revised or existing land use and activity level plans that involve vegetation, wildlife habitat and watershed treatment, modification or maintenance.

- This EIS will consolidate four existing BLM vegetation treatment EISs developed in compliance with the NEPA between 1986 and 1992 into one programmatic document for the western United States, including Alaska. The EIS will update information and change to reflect new information and changed conditions on public lands since that time.

- An updated EIS is necessary for BLM to analyze proposed treatments of 4 to 5 million acres of prescribed and managed natural fire, Integrated Weed Management, hazardous fuels reduction, Emergency Stabilization and Restoration, and landscape-level restoration initiatives such as Great Basin Restoration Initiative. Current average annual acres of treatment selected in the existing BLM records of decision (RODS) equate to about 350,000 acres.

- The analysis area includes only surface estate public lands administered by 11 BLM state offices: Alaska, Arizona, California, Eastern States, Idaho, Montana (Dakotas), New Mexico (Oklahoma/Texas/Nebraska), Nevada, Oregon (Washington), Utah and Wyoming.

The BLM has initially identified the following issues for analysis in this programmatic EIS: hazardous fuels reduction and treatment including mechanical treatments, wildlife habitat improvement, restoration of ecosystem processes; protection of cultural resources, watershed and vegetative community health, new listings of threatened and endangered species and consideration of other sensitive and special status species, new chemical formulations for herbicides deemed to be more environmentally favorable, smoke management and air quality, emergency stabilization and restoration, and watershed and water quality improvement.

Dated: December 10, 2001.

Henri Bisson,

Assistant Director, Renewable Resources and Planning.

Notice of Meeting

AGENCY: Bureau of Land Management (BLM), Montana, Butte, Dillon, and Missoula Field Offices, Interior.

ACTION: Notice of meeting.

SUMMARY: The Western Montana Resource Advisory Council will have a meeting on January 15, 2002, at the BLM—Butte Field Office Conference Room, 106 North Parkmont, Butte, Montana starting at 9 a.m. Primary agenda topics include orientation for new members and the Dillon Resource Management Plan.

The meeting is open to the public and the public comment period is set for 11:30 a.m. The public may make oral statements before the Council or file written statements for the Council to consider. Depending on the number of persons wishing to make an oral statement, a per person time limit may be established. Summary minutes of the meeting will be available for public inspection and copying during regular business hours.

FOR FURTHER INFORMATION CONTACT: Richard Hotaling, Butte Field Office Manager and Designated Federal Official, (406) 533-7600.

SUPPLEMENTARY INFORMATION: The purpose of the Council is to advise the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management. The 15 member Council includes individuals who have expertise, education, training or practical experience in the planning and management of public lands and their resources and who have a knowledge of the geographical jurisdiction of the Council.

Dated: November 21, 2001.

Scott Powers,

Dillon Field Manager.
