

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 71**

[Airspace Docket No. 00-AGL-24]

Modification of Class E Airspace; Youngstown, OH**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This action modifies Class E airspace at Youngstown, OH. An VHF Omnidirectional Range-A (VOR-A) Standard Instrument Approach Procedure (SIAP) to Runway 26 has been developed for Youngstown-Warren Regional Airport. Controlled airspace extending upward from 700 feet above the surface is needed to contain aircraft executing this approach. This action increases the width of the northerly extension and increases the radius of the existing Class E airspace for Youngstown, OH.

EFFECTIVE DATE: 0901 UTC, February 21, 2002.

FOR FURTHER INFORMATION CONTACT: Denis C. Burke, Air Traffic Division, Airspace Branch, AGL-520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294-7568.

SUPPLEMENTARY INFORMATION:**History**

On Friday, October 6, 2000, the FAA proposed to amend 14 CFR part 71 to modify Class E airspace at Youngstown, OH (65 FR 59762). The proposal was to modify controlled airspace extending upward from 700 feet above the surface to contain aircraft executing instrument approach procedures.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies Class E airspace at Youngstown, OH, to accommodate aircraft executing instrument flight

procedures into and out of Youngstown-Warren Regional Airport. The area will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Regulated Navigation Areas, Safety And Security Zones: Long Island Sound Marine Inspection and Captain of the Port Zone

AGENCY: Coast Guard, DOT.**ACTION:** Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary regulated navigation area (RNA) and two safety and security zones. The rule will regulate the circumstances under which certain vessels may enter, transit or operate within the regulated navigation area and will exclude all vessels from operating within 700 yards of the Millstone Nuclear Power Plant or 100 yards of an anchored Coast Guard vessel. This action is necessary to ensure public safety and prevent sabotage or terrorist acts.

DATES: This rule is effective from December 10, 2001 until June 15, 2002.

ADDRESSES: Documents as indicated in this preamble are available for inspection or copying at Group/Marine Safety Office Long Island Sound, 120 Woodward Avenue, New Haven, CT between the hours of 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Commander P.J. Maguire, Group/Marine Safety Office Long Island Sound, Prevention Department, at (203) 468-4401.
