Ohio Central Railroad

[Waiver Petition Docket Number FRA-2000-7351]

The Ohio Central Railroad owns and operates a caboose, number OHCR 556, which was built in 1976. This caboose is not used in regular service, but only on a limited basis in work train service. The car operates on the Ohio Central Railroad, which is a Class III railroad, operating a single track, unsignaled, line between South Zanesville and New Lexington, Ohio, a distance of 25 miles, with a branch to Glass Rock, Ohio, a distance of approximately 8 miles. The railroad operates in mainly a rural area, with South Zanesville being the largest population center. The petitioner reported that there were no records of vandalism or stoning of moving trains since they began operation in 1986. The OHCR requests relief from the requirements of Title 49 Code of Federal Regulations (CFR) 223.13 Requirements for existing cabooses due to the infrequent use of the caboose, the planned usage for work train service, and the cost of installing compliant glazing.
