

will calculate an importer-specific ad valorem duty assessment rate based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total customs value of the sales used to calculate those duties. This rate will be assessed uniformly on all entries of that particular importer made during the POR.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of these administrative reviews, as provided by section 751(a)(1) of the Act: (1) For the Viraj Group, a deposit equal to the above margin will be required; (2) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (3) the cash deposit rate for all other manufacturers or exporters will continue to be 48.80 percent, the "All Others" rate made effective by the original investigation.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: December 31, 2001.

Susan H. Kuhbach,

Acting Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 555-1565, issued on September 29, 2000 (65 FR 60411) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 555-1565 authorizes the permit holder to study the distribution, ecological role, health, and behavior of harbor seals (*Phoca vitulina*) along the west coast of North America via capture, tagging, marking, and biological

sampling, and performing vocalization playback experiments. The Permit also authorizes research on harbor seals in rehabilitation, including captive feeding studies to quantify biases associated with using fecal samples for diet analysis, and surgical implantation of radio tags to determine the efficacy of using such tags for application to the wild population for monitoring animal movements. The permit holder requests authorization to collect from the wild up to 8 harbor seals per year for use in the captive feeding studies and release them back to the wild after approximately 6 months in captivity; conduct feeding experiments on 10 California sea lions (*Zalophus californianus*) undergoing rehabilitation; and harass up to 2000 California sea lions per year at haul-out sites throughout central California for scat collection.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: December 31, 2001.

Ann D. Terbush,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
