The Councils are taking this action for the following reasons: (1) to address updated scientific information on the status of the stocks, (2) to address problems with the implementation and enforcement of the current management program, (3) to evaluate the impact of the rebuilding program on the human environment, (4) to consider proposals for providing controlled access to the monkfish resource south of the North Carolina/Virginia border to vessels from that area that are currently excluded, and (5) to comply with a federal Court Order to update the Essential Fish Habitat (EFH) elements of the FMP. You may comment at any of the public Council or committee meetings where Amendment 2 is on the agenda, or you may submit written comments by February 11, 2002 to:
