

priorities into the rehabilitation and release, and data collection categories. This reordering, as well as many of the responses to comments in this section, should more explicitly illustrate our interest in receiving proposals for operational costs that support ongoing stranding network efforts. Our guidance to technical reviewers includes weighting factors that favor proposals that are consistent with these listed priorities.

Comment 77: One commenter suggested that reviewers should be made familiar with the specific exemptions under the MMPA for coastal Alaska Natives.

Response: We will ask all technical reviewers to read this document completely prior to reviewing applications. The discussion of the Alaska Native exemptions in the comments and responses will provide them with important background for reviewing Alaskan proposals.

Application

Comment 78: One commenter indicated that the grant application forms are not well designed for this program, and included irrelevant fields and insufficient space to describe the proposed project. A template would be useful.

Response: The Federal grants process requires submission of a number of forms, that are currently generic. Very few specialized forms exist for specific grants programs, however, one can be developed for the Prescott Stranding Grant Program. Once developed, the form must be reviewed and approved by the Office of Management and Budget to be consistent with the Paperwork Reduction Act. The development, public review, and approval of a specialized form may take up to 2 years. Depending on the administrative demands of implementation of the Prescott Stranding Grant Program, we will look into modifying these forms in the upcoming year.

Section III D. of this document provides an outline for the project description, which can be up to 10 pages long and is an attachment to the application form, not a section of the form.

Some assistance in filling out the required forms and in avoiding common problems can be found at the NOAA Grants homepage, specifically, at: <http://www.rdc.noaa.gov/grants/index.html>. We have also posted an application package, as well as a mock application, and questions and answers related to applications for the Prescott Stranding Grant Program on our Web site at: http://www.nmfs.noaa.gov/prot_res/PR2/
