Delegation of New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants for Guam and the States of Arizona, California, Hawaii, and Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA has routinely approved most requests from state and local agencies in Region IX for delegation of New Source Performance Standards (NSPS), and National Emission Standards for Hazardous Air Pollutants (NESHAPs). This document is addressing general authorities mentioned in the regulations for NSPS and NESHAPs, proposing to update the delegations tables and clarifying those authorities that are retained by EPA. We are taking comments on this proposal and intend to follow with a final action.

DATES: Any comments must be received by February 13, 2002.

ADDRESSES: Mail comments to Andy Steckel, Chief, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901. Copies of supporting information are available for inspection during normal business hours at the following location: U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street (AIR-4), San Francisco, California, 94105.

- Who is authorized to delegate these authorities?
- What does delegation accomplish?
- What authorities are not delegated by EPA?
- Does EPA keep some authority?
- Administrative Requirements

What Is the Purpose of This Document?

Through this document, EPA is proposing to accomplish the following objectives:

(1) Update the delegations tables in the Code of Federal Regulations, Title 40 (40 CFR), parts 60 and 61, to provide an accurate listing of the delegated standards; and

(2) Clarify those authorities that are retained by EPA and not granted to state or local agencies as part of delegation. These actions are described below.

Update of Tables in the CFR

Today's action proposes to update the delegation tables in 40 CFR parts 60 and 61, to allow easier access by the public to the status of delegations in various state or local jurisdictions. The updated delegation tables would include the delegations approved in response to recent requests, as well as those previously granted. The proposed tables are shown at the end of this document. EPA is also proposing to update the addresses for state and local agencies within the jurisdiction of EPA Region IX.

Recent requests for delegation that will be incorporated into the updated CFR tables are identified below. Each individual submittal identifies the specific NSPS and NESHAPs for which delegation was requested. Some of these requests have already been approved and simply need to be included in the CFR. For requests listed below that have not yet been approved, EPA will consider these delegation requests as approved on the effective date of the final rulemaking that will follow today's action.

| Agency | Date of request |
|---|---|
| Arizona Department of Environmental Quality | May 29, 1998, and October 6, 1999. |
| Kern County Air Pollution Control District | February 8, 1995, January 20, 2000, and May 18, 2001. |
| Lake County Air Quality Management District | February 24, 1997. |
| Mendocino County Air Quality Management District | May 21, 1999. |
| Sacramento Metropolitan Air Quality Management District | August 7, 1995, April 24, 1997, and July 7, 1998. |
| San Diego Air Pollution Control District | June 23 and December 24, 1999. |
| San Joaquin Valley Unified Air Pollution Control District | May 27, 1999, and June 26, 2000. |
| Santa Barbara County Air Pollution Control District | August 6, 1996. |
| Ventura County Air Pollution Control District | February 9, 1995. |
| Yolo-Solano Air Quality Management District | October 20, 1998. |

In the future, EPA Region IX may establish a new procedural option for state and local agencies to receive delegation of 40 CFR part 60 and 61 standards. If an agency has delegation of a standard, then the new procedure may allow that agency to receive delegation of any amendments to that standard as they are adopted by reference. The details of any new procedure will be described in a future rulemaking action before it is implemented. It is being mentioned here for informational purposes only.

Clarification of Non-Delegable Authorities

In February 1999, EPA released a guidance document entitled, "How to Review and Issue Clean Air Act Applicability Determinations and Alternative Monitoring—NSPS & NESHAPS, (EPA 305-B-99-004)." In accordance with this guidance, today's action clarifies the NSPS and NESHAP authorities that are not delegated to state and local agencies under Clean Air Act sections 111 and 112. These clarifications will be codified at 40 CFR

60.4(d) and 61.04(c)(9). Today's action also requests that state and local agencies exclude the non-delegable subsections from future delegation requests, and informs the public of our intention to appropriately revise future delegation letter approvals and **Federal Register** announcements.

Who Is Authorized To Delegate These Authorities?

Sections 111(c)(1) and 112(l) of the Clean Air Act, as amended in 1990, authorize the Administrator to delegate

his or her authority for implementing and enforcing standards in 40 CFR Parts 60 and 61.

What Does Delegation Accomplish?

Delegation grants a state or local agency the primary authority to implement and enforce federal standards. All required notifications and reports should be sent to the delegated state or local agency, as appropriate, with a copy to EPA Region IX. Acceptance of delegation constitutes agreement by the state or local agency to follow 40 CFR parts 60 and 61, and EPA's test methods and continuous monitoring procedures.

What Authorities Are Not Delegated by EPA?

In general, EPA does not delegate to state or local agencies the authority to make decisions that are likely to be nationally significant, or alter the stringency of the underlying standards. The following describes in more detail the authorities in 40 CFR Parts 60 and 61 that are retained by EPA.

1. Provisions that address EPA's authority to delegate to states are not being delegated because it is inappropriate to imply that states have authority to delegate to themselves. These provisions include 40 CFR 60.4(b), 61.04(b), and 61.04(c); part 60, subpart B; and part 60, subpart C.

2. Provisions that require federal oversight to ensure national consistency and EPA's ability to enforce the standards are not being delegated. These provisions include 40 CFR 61.05(c) and 61.11.

3. Provisions that grant EPA discretion to approve modifications to test methods or protocols are not being delegated in order to ensure uniformity and technical quality in enforcement of national standards. These provisions include 40 CFR 60.8(b); 60.11(b); 60.13(a),(d)(2), and (g); 60.13(i); 61.13(h)(1)(ii); and 61.14(d) and (g)(1)(ii).

4. Provisions that require rulemaking cannot be delegated because states cannot perform federal rulemaking. These provisions include 40 CFR 60.11(e) and 61.12(d).

5. Provisions that address EPA's obligation to make certain information available to the public does not apply to states under federal law and is not appropriate for delegation. These provisions include 40 CFR 60.9 and 61.16.

6. Appendices to 40 CFR parts 60 and 61 are not performance standards and are not delegable under Clean Air Act Section 111(c)(1) or 112(l)(1). However, all applicable test methods and other

requirements in the Appendices must be followed for the delegated subparts.

As additional assurance of national consistency, state and local agencies must send to EPA Region IX Air Division's Enforcement Office Chief a copy of any written decisions made pursuant to the following delegated authorities:

- Applicability determinations that state a source is not subject to a rule or requirement;
- Approvals or determination of construction, reconstruction or modification;
- Minor or intermediate site-specific changes to test methods or monitoring requirements; or
- Site-specific changes or waivers of performance testing requirements.

For decisions that require EPA review and approval (for example, major changes to monitoring requirements), EPA intends to make determinations in a timely manner.

In some cases, the standards themselves specify that specific provisions cannot be delegated. State and local agencies should review each individual standard for this information.

Does EPA Keep Some Authority?

EPA retains independent authority to enforce the standards and regulations of 40 CFR parts 60 and 61.

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this proposed action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. This proposed action merely proposes to approve state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (U.S.C. 601 *et seq.*). Because this rule proposes to approve pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). This proposed rule also does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as

specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it would merely approve a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This proposed rule also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing delegation requests, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a delegation request for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a request for delegation, to use VCS in place of a submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this proposed rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of this action in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This proposed rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
