### Fish and Wildlife Service

#### Threemile Canyon Farms Multi-Species Candidate Conservation Agreement with Assurances

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of intent.

**SUMMARY:** Pursuant to the National Environmental Policy Act, this notice advises the public that the U.S. Fish and Wildlife Service (Service), in cooperation with the Oregon Department of Fish and Wildlife (ODFW), The Nature Conservancy (TNC), and Portland General Electric (PGE), intends to gather information necessary to prepare an environmental document (environmental assessment or environmental impact statement) regarding the proposed Threemile Canyon Farms Multi-Species Candidate Conservation Agreement with Assurances (MSCCAA) and issuance of an enhancement of survival permit under section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA). Threemile Canyon Farms is the potential permit applicant.

The Service is furnishing this notice in order to: (1) Advise other Federal and State agencies, affected tribes, and the public of our intentions; (2) announce the initiation of a 30-day public scoping period; and (3) to obtain suggestions and information on the scope of issues to be included in the environmental document.

**DATES:** Written comments from all interested parties must be received on or before February 13, 2002.

**ADDRESSES:** Comments should be addressed to Kemper McMaster, State Supervisor, USFWS, 2600 SE 98th Ave., Suite 100, Portland, OR 97266, telephone (503) 231-6179, facsimile (503) 231-6195.

**FOR FURTHER INFORMATION CONTACT:** Kemper McMaster, (503) 231-6179.

**SUPPLEMENTARY INFORMATION:** Candidate Conservation Agreements with Assurances contain a strategy for covered lands and activities that demonstrate an applicant's contribution to preclude or remove the need to list a covered species as threatened or

endangered under the Act. In return, the applicant is provided with regulatory certainty that they will not be required to provide additional conservation measures should any of the covered species become listed under the ESA in the future. The MSCCAA will cover approximately 93,000 acres near Boardman, Oregon, including a 23,000-acre wildlife conservation area managed by TNC and property owned by PGE located within the plan boundaries. The primary goal of the MSCCAA is to implement a variety of habitat conservation measures for the following covered species: the Washington ground squirrel (*Spermophilus washingtoni*), ferruginous hawk (*Buteo regalis*), loggerhead shrike (*Lanius ludovicianus*), grasshopper sparrow (*Ammodramus savannarum*), and the sage sparrow (*Amphispiza belli*). Conservation measures will focus on restoration and re-establishment of native plant communities including sagebrush and bitterbrush steppe along with grassland species such as needle and thread (*Stipa spp.*). Other measures include control of exotic species and implementation monitoring. Potential covered activities include: mechanized farming and dairy operations; product transportation; road construction, use and maintenance; site preparation; fertilizer application; fire suppression; prescribed burning and other agricultural or habitat restoration activities.

The Service will conduct an environmental review of the Plan and prepare an environmental document. The review will analyze the proposal, as well as a full range of reasonable alternatives, and the associated impacts of each. Should information become available during the scoping process that indicates the likelihood of significant impacts from the proposed project, an Environmental Impact Statement will be prepared. Otherwise, an Environmental Assessment will be prepared. Comments and suggestions are invited from all interested parties to ensure the full range of issues related to this proposed action are identified. Comments, or questions should be addressed to the Service at the address or telephone number provided above.

The environmental review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), National Environmental Policy Act Regulations 40 CFR (1500-1508), other appropriate Federal laws and regulations, and policies and procedures of the Service for compliance with those regulations.

Dated: January 8, 2002.

**Rowan W. Gould,**

*Deputy Regional Director, Fish and Wildlife Service, Region 1, Portland, Oregon.*

### Minerals Management Service

#### Agency Information Collection Activities: Proposed Collection, Comment Request

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of an extension of a currently approved information collection (OMB Control Number 1010-0122).

**SUMMARY:** To comply with the Paperwork Reduction Act (PRA) of 1995, we are inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) is titled "Filing Sureties."

**DATES:** Submit written comments on or before March 15, 2002.

**ADDRESSES:** Submit written comments to Carol P. Shelby, Regulatory Specialist, Minerals Management Service, Minerals Revenue Management, PO Box 25165, MS 320B2, Denver, Colorado 80225. If you use an overnight courier service, MMS's courier address is Building 85, Room A-614, Denver Federal Center, Denver, Colorado 80225.

**FOR FURTHER INFORMATION CONTACT:** Carol P. Shelby, telephone (303) 231-3151, FAX (303) 231-3385.

#### SUPPLEMENTARY INFORMATION:

*Title:* Filing Sureties.

*OMB Control Number:* 1010-0122.

*Bureau Form Number:* Forms MMS-4435 and 4436.

*Abstract:* The Department of the Interior (DOI) is responsible for matters relevant to mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary of the Interior (Secretary) is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The Secretary also has an Indian trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. MMS performs the royalty management functions and assists the Secretary in

carrying out DOI's Indian trust responsibility.

Regulations in 30 CFR part 243 allow lessees, designees, or payors who can demonstrate that they are financially solvent to stay the effectiveness of an MMS order or decision without posting a surety instrument (Federal leases only). For those who are not financially solvent or for appeals involving Indian leases, MMS requires that a surety instrument be posted to secure the financial interests of the public and Indian lessors during the entire administrative or judicial appeal process. MMS accepts the following types of surety instruments:

- Form MMS-4435, Administrative Appeal Bond;
- Form MMS-4436, Letter of Credit;
- Certificates of Deposit; and
- U.S. Treasury Securities.

This information collection covers the hour burden associated with submitting annual audited financial statements or the surety instruments listed above. Submission of the information in this collection is necessary to stay the effectiveness of an MMS order or decision issued for a Federal and Indian property. Proprietary information that is submitted is protected, and there are no questions of a sensitive nature included in this information collection.

*Frequency:* On occasion.

*Estimated Number and Description of Respondents:* 300 Federal or Indian lessees.

*Estimated Annual Reporting and Recordkeeping "Hour" Burden:* 300 hours.

*Estimated Annual Reporting and Recordkeeping "Non-hour Cost" Burden:* We have identified no "non-hour cost" burdens.

*Comments:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency " \* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \*." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden

on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon.

*Public Comment Policy.* We will make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Individual respondents may request that we withhold their home address from the public record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

*MMS Information Collection Clearance Officer:* Jo Ann Lauterbach, (202) 208-7744.

Dated: November 16, 2001.

**Lucy Querques Denett,**

*Associate Director for Minerals Revenue Management.*
