

On December 13, 2001, respondent Sammi Steel Co., Ltd. ("Sammi") timely filed an allegation that the Department made a ministerial error in the final results. Petitioners did not submit any comments in reply to this ministerial error allegation.

The Department is revising the all others rate applied to Sammi in the final results in this administrative review of stainless steel sheet and strip in coils from the Republic of Korea. Because Sammi did not participate in the original investigation and because Sammi had no shipments during the period of review, its cash deposit rate is the all others rate assigned to this case.

Sammi's Allegation of a Ministerial Error by the Department

Sammi contends that the Department, in its *Final Results*, erroneously applied the all others rate determined in the original investigation to Sammi, a no shipper during the period of review. Sammi notes that the Department amended its final determination on August 28, 2001, revising the all others rate from 12.12 percent to 2.49 percent. See *Notice of Amendment of Final Determinations of Sales at Less Than Fair Value: Stainless Steel Plate in Coils From the Republic of Korea; and Stainless Steel Sheet and Strip in Coils From the Republic of Korea ("Amended Final Determination")*, 66 FR 45279 (August 28, 2001). Sammi contends that the Department should amend its *Final Results* to apply the all others rate of 2.49 percent determined in the *Amended Final Determination* to Sammi.

Sammi notes that the Department's regulations defines a ministerial error as an "error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial," citing 19 CFR 351.224(f). Therefore, Sammi requests that the Department correct this ministerial error by revising Sammi's cash deposit rate and the all others rate to 2.49 percent in this administrative review, in accordance with the *Amended Final Determination*.

Department's Position: We agree with Sammi. Our *Final Results* erroneously stated that the "all others rate" applicable to exporters or manufacturers who have not been covered in this or any previous review conducted by the Department is 12.12 percent rather than the 2.49 percent established in the *Amended Final Determination*. The correct all others rate applicable to Sammi is the all others rate established

in the *Amended Final Determination*. Since Sammi did not participate in the original investigation and because Sammi had no shipments in the current period of review, its cash deposit rate is the all others rate determined in the *Amended Final Determination*.

Therefore, we are amending the final results of the antidumping duty administrative review of stainless steel sheet and strip in coils from the Republic of Korea to reflect the correction of the above-cited ministerial error.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: January 9, 2002.

Faryar Shirzad,

Assistant Secretary for Import Administration.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 01-022. *Applicant:* The Scripps Research Institute, 10550 North Torrey Pines Road, La Jolla, CA 92037. *Instrument:* Electron Microscope, Model Tecnai F20T. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used in the study of the following:

- (1) Cowpea Mosaic Virus isolated from infected plants.
- (2) NwV Mosaic Virus isolated from insect cells.
- (3) Muscle Proteins isolated from vertebrate striated and smooth muscle fibers.

(4) Microtubules and associated proteins isolated from bovine brain or from bacterial expression systems.

(5) CHIP28 Water Channels isolated from human erythrocytes.

(6) Aqua Porins isolated from plants.

(7) Acetylcholine Receptors isolated from the electric organ of Torpedo californica and T.marmorata.

(8) Gap Junctions isolated from rat hearts and liver as well as from tissue culture expression systems.

(9) Rotavirus and Reovirus isolated from infected tissue culture cells.

(10) Transcription Complexes from bacterial and yeast expression systems.

(11) A number of enzyme complexes: fatty acid synthase, glyceraldehyde-3-phosphate dehydrogenase, hemocyanin, GroEL, isolated from various tissues of animal and plant origin.

(12) Tobacco Mosaic Virus isolated from infected plants.

The goals of the investigations are in general to understand the structural basis for how the subcellular organelles function and to elucidate the role that they play in the life of the cell.

Application accepted by Commissioner of Customs: October 14, 2001.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

[I.D. 011102G]

Proposed Information Collection; Comment Request; Economic Performance Data for the West Coast (California-Alaska) Commercial Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before March 18, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental

Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Dave Colpo, Pacific States Marine Fisheries Commission, 7600 Sand Point Way N.E., Seattle, WA 98115, phone 206-526-4251, dave—colpo@psmfc.org; Steve Freese, Alaska Fisheries Science Center, 7600 Sand Point Way N.E., Seattle, WA 98115, phone 206-526-6113, Steve.Freese@noaa.gov; or Joe Terry, Alaska Fisheries Science Center, 7600 Sand Point Way N.E., Seattle, WA 98115, phone 206-526-4253, Joe.Terry@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Economic performance data for selected West Coast (California-Alaska) commercial fisheries will be collected for each of the following groups of operations: (1) processors, including on-shore plants, mothership vessels and at-sea catcher/processor vessels; (2) catcher vessels; and (3) charter vessels. Companies associated with these groups will be surveyed for expenditure, earnings and employment data. In general, questions will be asked concerning ex-vessel and wholesale prices and revenue, variable and fixed costs, expenditures, dependence on the fisheries, and fishery employment. The data collection efforts will be coordinated to reduce the additional burden for those who participate in multiple fisheries. Each year the principal focus of this data collection program will be on a different set of fisheries or on a different set of participants in these fisheries. The data will be used for the following three purposes: (1) to monitor the economic performance of these fisheries and various components of these fisheries through primary processing; (2) to analyze the economic performance effects of current management measures; and (3) to analyze the economic performance effects of alternative management measures. The measures of economic performance to be supported by this data collection program include the following: (1) contribution to net National benefit; (2) contribution to income of groups of participants in the fisheries (i.e., fishermen, vessel owners, processing plant employees, and processing plant owners) (3) employment; (4) regional economic

impacts (income and employment); and (5) factor utilization rates. As required by law, the confidentiality of the data will be protected.

In each year, the data collection effort will focus on different components of the West Coast fisheries and more limited data will be collected for the previously surveyed components of these fisheries. The latter will be done to update the models that will be used to track economic performance and to evaluate the economic effects of alternative management actions. This cycle of data collection will result in economic performance data being available and updated for all the components of the West Coast fisheries identified above.

The large scale of most of the processing operations involved in these fisheries and of many of the harvesting operations and the concentration of ownership in many of these fisheries, particularly off Alaska, means that improved economic data for the management of these fisheries is a high priority for the individuals who will provide data for these fisheries. This is demonstrated by the fact that associations representing many of the Alaskan participants in these fisheries support this data collection effort and have volunteered to assist in verifying the data.

II. Method of Collection

Data will be collected from a sample of the owners and operators of catcher vessels, catcher/processors, on-shore processing plants, motherships and charter vessels that participate in these fisheries. The data are expected to be collected principally by NMFS and Pacific States Marine Fisheries Commission economists. Questionnaires will be mailed to the selected members of each of the different survey groups and in many cases those individuals will be interviewed to ensure the clarity of their responses. To the extent practicable, the data collected will consist of data that the respondents maintain for their own business purposes. Therefore, the collection burden will consist principally of transcribing data from their internal records to the survey instrument and participating in personal interviews. In addition, current data reporting requirements will be evaluated to determine if they can be modified to provide improved economic data at a lower cost to respondents and the Agency. Similarly, it will be determined if some of these data can be collected more effectively and efficiently from the firms that provide bookkeeping and accounting services to participants in

West Coast commercial marine fisheries. This data collection method would be used only after obtaining permission to do so from participants in the fisheries.

The surveys described in this Federal Register Notice will be voluntary. The North Pacific Fishery Management Council is considering the development of additional mandatory reporting requirements for economic data. If such requirements are implemented, the data collected with voluntary surveys in Alaska would be decreased.

III. Data

OMB Number: 0648-0369.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business and other for-profit organizations.

Estimated Number of Respondents: 2,278.

Estimated Time Per Response: 2 hours for a response from a catcher vessel; 1 hour for a response from a charter boat operator; and 8 hours for a response from a processor.

Estimated Total Annual Burden Hours: 7,074.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 10, 2002.

Madeleine Clayton,

*Departmental Paperwork Clearance Officer,
Office of the Chief Information Officer.*
