

Another proposal that was recently approved is to provide CMAQ support to a new rail service between Los Angeles and Las Vegas. The State of Nevada proposed to provide a relatively small portion of the total cost of this service using CMAQ funds. The eligibility determination was based on the particulate emission reductions to be obtained within the Las Vegas particulate matter nonattainment area.

Within Nevada, the project will begin in the Las Vegas nonattainment area and proceed southwesterly toward the California State line, about 30 miles away. Approximately half of that distance is within the designated nonattainment area; the remainder of the distance within Nevada is not designated. Within California, the entire remaining distance is designated nonattainment for particulate matter. The western part of the route, closer to Los Angeles is classified as a serious nonattainment area. Thus, only about 15 miles of the approximately 275 mile long project is outside of designated areas. And, the emission benefits related to moving people by train rather than by automobile can only be obtained by a continuous project, including the area not designated.

Policy Decision

The FHWA and the FTA believe that the current policy can serve the needs of those high speed rail projects that are eligible within the statutory authority of 23 U.S.C. 149. Under the current policy, rail projects can be funded if they (1) are located within, or in close proximity to, nonattainment or maintenance areas, (2) can demonstrate the projects' emission reductions are realized primarily within the designated areas, and (3) meet other criteria for CMAQ funding. There is no compelling need to modify the policy at this time. The determination that proposals for CMAQ funding meet these criteria should be made in close collaboration with State and local officials at transportation and air quality agencies, including the MPO, and the EPA, but the final determination of CMAQ eligibility rests with the FHWA and the FTA, as always.

Authority: 23 U.S.C. 149, 315; 49 CFR 1.48 and 1.51.

Issued on: January 9, 2002.

Mary E. Peters,

Administrator, Federal Highway Administration.

Jennifer L. Dorn,

Federal Transit Administrator.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34149]

Stillwater Central Railroad, Inc.— Acquisition Exemption—The Burlington Northern and Santa Fe Railway Company

Stillwater Central Railroad, Inc. (SCRRI), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire from The Burlington Northern and Santa Fe Railway Company and operate approximately 119.73 miles of rail line between milepost 549, at Wheatland, OK, and milepost 668.73, at Long, OK.

The transaction was scheduled to be consummated on or shortly after December 28, 2001.

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke does not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34149, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Karl Morell, Esq., BALL JANIK LLP, 1455 F Street, NW., Suite 225, Washington, DC 20005.

Board decisions and notices are available on our website at www.stb.dot.gov.

Decided: January 4, 2002.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,
Secretary.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34121]

Craggy Mountain Line, Inc.— Acquisition and Operation Exemption—Norfolk Southern Railway Co.

Craggy Mountain Line, Inc. (CMLX), a noncarrier, has filed a verified notice of exemption under 49 CFR part 1150.31 to acquire and operate approximately 3.45 miles of rail line currently owned by Norfolk Southern Railway Company (NS). The line, known as the Asheville

to Craggy Branch, is a portion of the former Southern Railroad located in Woodfin Township, Buncombe County, NC, and extends between the beginning Survey Station ACM, 17+63=0100 in Woodfin Township and the ending Survey Station 123+00 "Asheville to Southern" 17+97 in Woodfin Township. CMLX certifies that its projected annual revenues as a result of this transaction will not result in the creation of a Class I or Class II rail carrier, and further certifies that its projected annual revenues will not exceed \$5 million.

The transaction was scheduled to be consummated on or after December 31, 2001.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to reopen the proceeding to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34121, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on David R. Payne, P.A., 218 East Chestnut St., Asheville, NC 28801.

Boards decisions and notices are available on our Web site at "www.stb.dot.gov."

Decided: January 9, 2002.

By the Board, David M. Konschnik, Director, Office of Proceedings.

BILLING CODE 4915-00-P

DEPARTMENT OF TRANSPORTATION

Bureau of Transportation Statistics

Agency Information Collection; Activity Under OMB Review; Report of Financial and Operating Statistics for Small Aircraft Operators

AGENCY: Bureau of Transportation Statistics (BTS), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, Public Law 104-13, the Bureau of Transportation Statistics invites the general public, industry and other governmental parties to comment on the continuing need for and usefulness of BTS collecting financial, traffic and operating statistics from small

certificated and commuter air carriers. Small certificated air carriers (operate aircraft with 60 seats or less or with 18,000 pounds of payload capacity or less) currently must file the five quarterly schedules listed below:

A-1 *Report of Flight and Traffic Statistics in Scheduled Passenger Operations,*

E-1 *Report of Nonscheduled Passenger Enplanements by Small Certificated Air Carriers,*

F-1 *Report of Financial Data,*

F-2 *Report of Aircraft Operating Expenses and Related Statistics, and*

T-1 *Report of Revenue Traffic by On-Line Origin and Destination.*

Commuter air carriers must file the three quarterly schedules listed below:

A-1 *Report of Flight and Traffic Statistics in Scheduled Passenger Operations,*

F-1 *Report of Financial Data,*

T-1 *Report of Revenue Traffic by On-Line Origin and Destination.*

On August 28, 2001, BTS published in the **Federal Register** (66 FR 45201) a notice of proposed rulemaking which recommends that small certificated and commuter air carriers report their traffic under the T-100 reporting system. If this proposal becomes a final rule, Form 298-C, Schedules A-1, E-1 and T-1 would be eliminated.

Commenters should address whether BTS accurately estimated the reporting burden and if there are other ways to enhance the quality, utility, and clarity of the information collected.

DATES: Written comments should be submitted by March 18, 2002.

ADDRESSES: Comments should be directed to: Office of Airline Information, K-25, Room 4125, Bureau of Transportation Statistics, 400 Seventh Street, SW., Washington, DC 20590-0001, fax No. 366-3383 or e-mail bernard.stankus@bts.gov.

Comments: Comments should identify the OMB # 2138-0009. Persons wishing the Department to acknowledge receipt of their comments must submit with those comments a self-addressed stamped postcard on which the following statement is made: Comments on OMB # 2138-0009. The postcard will be date/time stamped and returned.

FOR FURTHER INFORMATION CONTACT: Bernie Stankus, Office of Airline Information, K-25, Room 4125, Bureau of Transportation Statistics, 400 Seventh Street, SW., Washington, DC 20590-0001, (202) 366-4387.

SUPPLEMENTARY INFORMATION:

OMB Approval No.: 2138-0009.

Title: Report of Financial and Operating Statistics for Small Aircraft Operators.

Form No.: BTS Form 298-C.

Type Of Review: Extension of a currently approved collection for the financial data. The traffic data will be included under OMB Approval number 2138-0040.

Respondents: Small certificated and commuter air carriers.

Number of Respondents: 90.

Estimated Time per Response: 4 hours per commuter carrier; 12 hours per small certificated carrier.

Total Annual Burden: 2,880 hours.

Needs and Uses: Program uses for Form 298-C financial data are as follows:

Mail Rates

The Department of Transportation sets and updates the Intra-Alaska Bush mail rates based on carrier aircraft operating expense, traffic, and operational data. Form 298-C cost data, especially fuel costs, terminal expenses, and line haul expenses are used in arriving at rate levels. DOT revises the established rates based on the percentage of unit cost changes in the carriers' operations. These updating procedures have resulted in the carriers receiving rates of compensation that more closely parallel their costs of providing mail service and contribute to the carriers' economic well-being.

Essential Air Service

DOT often has to select a carrier to provide a community's essential air service. The selection criteria include historic presence in the community, reliability of service, financial stability and cost structure of the air carrier.

Carrier Fitness

Fitness determinations are made for both new entrants and established U.S. domestic carriers proposing a substantial change in operations. A portion of these applications consists of an operating plan for the first year (14 CFR part 204) and an associated projection of revenues and expenses. The carrier's operating costs, included in these projections, are compared against the cost data in Form 298-C for a carrier or carriers with the same aircraft type and similar operating characteristics. Such a review validates the reasonableness of the carrier's operating plan.

The quarterly financial submissions by commuter and small certificated air carriers are used in determining each carrier's continuing fitness to operate. Section 41738 of Title 49 of the United States Code requires DOT to find all commuter and small certificated air carriers fit, willing, and able to conduct passenger service as a prerequisite to

providing such service to an eligible essential air service point. In making a fitness determination, DOT reviews three areas of a carrier's operation: (1) The qualifications of its management team, (2) its disposition to comply with laws and regulations, and (3) its financial posture. DOT must determine whether or not a carrier has sufficient financial resources to conduct its operations without imposing undue risk on the traveling public. Moreover, once a carrier begins conducting flight operations, DOT is required to monitor its continuing fitness.

Senior DOT officials must be kept fully informed and advised of all current and developing economic issues affecting the airline industry. In preparing financial condition reports or status reports on a particular airline, financial and traffic data are analyzed. Briefing papers prepared for senior DOT officials may use the same information.

Air Transportation Safety and System Stabilization Act

DOT is using financial data reported by small certificated and commuter air carriers to establish benchmarks to assess the reasonableness of air carrier claims under the Stabilization Act.

Donald W. Bright,

*Assistant Director, Airline Information,
Bureau of Transportation Statistics.*
