Electricity Market Design & Structure; Notice of Meetings and Conferences on Electric Market Matters

January 11, 2002.

As announced in a recent Commission Meeting, the Federal Energy Regulatory Commission (FERC) is planning a series of discussions on various electric market design issues.

Our Commissioners are especially interested in the views of state Commissioners and in discussing some of these issues with them. The National Association of Regulatory Utility Commissioners (NARUC) has scheduled its winter meetings for February 10th—13th, 2002. NARUC is allowing FERC to have time during its winter meetings to hold two sessions on issues of mutual concern. NARUC is holding its meetings at the Hyatt Regency Washington Hotel, 400 New Jersey Avenue, NW., Washington DC 20001.

The following two sessions on FERC-related issues are in the Hyatt's Regency A Room:

Date: Sunday, February 10, 2002.

Time: 10 a.m.—12 p.m.

Topic: Whether all wholesale and retail transmission services should be under the same rates, terms and conditions.

Date: Monday, February 11, 2002.

Time: 4 p.m.—5:45 p.m.

Topic: Whether the Federal Energy Regulatory Commission should require RTOs to administer a regional, long-term generation capacity obligation, and if so, the form and mechanism for that obligation.

These two sessions are open to everyone. There will be no charge for those attending these two sessions only.

The Commission is also co-sponsoring a conference with the U.S. Department of Energy (DOE) to raise awareness about the potential role of demand response programs in the evolution of efficient electric market operations. A series of panel discussions will address related topics. Some conference details are as follows:

Date: Thursday, February 14, 2002.

Time: 7:30 a.m. to 8:30 a.m.—

Registration; Adjournment at 5:00 p.m.

Location: Washington DC Convention Center, 900 Ninth Street NW., Washington, DC 20001.

This conference is open to everyone, but registration and a fee (\$75 until January 31st, and \$125 thereafter) are required.

More information on the topics and presenters may be issued in a later notice.

The three sessions will be transcribed. The transcripts will be included as part of the record for the referenced proceedings and will be posted in the Commission's Records and Information Management System (RIMS) within 10 days of the events. More prompt copies of transcripts can be obtained sooner for a fee from the court reporter designated to handle the three sessions.

More information on the first two events, and procedures to register for the entire NARUC winter meetings (including information on registration, fees, and lodging) is at the following Web site: www.naruc.org/Meetings/winter/2002/naruc_winter.pdf.

Registration and lodging information on the Demand Response Conference is at the following Web site: www.ferc.gov/Electric/RTO/Mrkt-Strct-comments/rm01-12-comments.htm.

Additional questions about the program, not answered by information at these Web sites, should be directed to: Norma McOmber, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, 202-208-1015, norma.mcomber@ferc.fed.us.

Request for Comments on Potential Changes to the Upland Erosion Control, Revegetation and Maintenance Plan and the Wetland and Waterbody Construction and Mitigation Procedures

January 11, 2002.

The Office of Energy Projects (OEP) staff is in the process of reviewing the Upland Erosion Control, Revegetation and Maintenance Plan and the Wetland and Waterbody Construction and Mitigation Procedures referred to at 18 CFR 157.206(b)(3)(iv) of the Commission's regulations to see if there are appropriate modifications to be made at this time. As promised in Order 609, the staff is asking for public input on potential modifications.

This process of obtaining public input began at the Post-Certificate Environmental Compliance Seminar conducted in Houston on December 12 and 13, 2001. Additional input will be

solicited at the subsequent sessions of this training course identified in our November 15, 2001 notice. However, in order to obtain the broadest public participation in this process, we are asking for comment outside of these training sessions as well.

We have posted a table on our Web site showing the changes that were identified for discussion at the December 12th session and we request your comments on whether each of the changes are appropriate, with discussion of your rationale. In addition, please describe any additional changes you believe might be appropriate. The table is at <http://www.ferc.gov/gas/pptable.pdf>.

To provide comments you may log on to the FERC Web site at www.ferc.gov, and follow the links to "Gas Industry Seminars," "Online Registration," and "Participant Recommendations" or go directly to www.ferc-envtraining.com and select "Participant Recommendations."
