Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Trafficking Victims Certification and Reporting System.

OMB No. New.

Description: HHS has three specific areas of responsibility under the Victims of Trafficking and Violence Protection Act of 2000 (Pub. L. 106-386) that require new information. These are: (1) Issuing a letter certifying victims as eligible to apply for public benefits, (2) Expanding benefits, and (3) reporting to

Congress on the number of people who receive benefits and services. Other requirements may result from the activities of an Interagency Task Force of which HHS is a member.

Information concerning victims of a severe form of trafficking is needed to certify those individuals as eligible to apply for public benefits and to help them secure subsistence while they wait to assist the Attorney General in the prosecution of a case against the trafficker. Updated information on client location is critical to statutory intent to ensure the victim's ability to meet basic needs while in the U.S. to cooperate in the prosecution of a trafficker. Current information on the number of victims receiving benefits is required to be annually reported to the U.S. Congress by the Secretary. Such information is also essential to program management and budget planning.

Respondents: Respondents are primarily state and county public assistance eligibility workers and the DOJ, DOL, DOS, other federal agencies, other law enforcement agencies, victims of trafficking and voluntary agency staff could contribute information as well.
