SUPPLEMENTARY INFORMATION:**I. Abstract**

The Contact Facilitation Service (CFS) is a U.S. Department of Commerce database, designed to put U.S. producers together with export service providers. Many U.S. firms have never exported because of a fear of the risks involved in exporting and a lack of knowledge of the international marketplace. New-to-export firms need the assistance of export service firms offering export trade services. One of the purposes of the Export Trading Company (ETC) Act of 1982 is to increase United States exports of goods and services by encouraging more efficient provision of export trade services to U.S. producers and suppliers. Section 104 of the Act directs Commerce to provide a service to facilitate contact between producers of exportable goods and services and firms offering export trade services.

The International Trade Administration (ITA) maintains the CFS database of U.S. manufacturers, export

trading and management companies, wholesalers/distributors, and international service firms. The CFS is designed to help promote exports and enable U.S. producers to locate export service providers. Export Service firms registered in the CFS database are listed in annual print editions of the *U.S. Trade Assistance Directory*, distributed throughout the United States. U.S. producers of goods and services registered in the CFS database are listed in the annual print editions of the *U.S. Department of Commerce Exporters' Yellow Pages™*, distributed worldwide. These directories also are accessible online at www.myexports.com. The print and electronic directories are produced and made available through ITA's "MyExports™" program. Without the information collected by the form, the CFS database and the resulting directories would be unreliable and ineffective, because users of this kind of data need current information about the listed companies.

Time Limits

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the preliminary results within 245 days after the last day of the anniversary month of an order/finding for which a review is requested and the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days after the last day of the anniversary month of an order/finding for which a review is requested, and for the final results to 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of publication of the preliminary results.

Background

On August 20, 2001, the Department of Commerce (the Department) published a notice of initiation of administrative review of the antidumping duty order on furfuryl alcohol from Thailand, covering the period July 1, 2000 through June 30, 2001 (66 FR 43570). The preliminary

results are currently due no later than April 2, 2002.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this review within the original time limit for the reasons stated in our memorandum from Gary Taverman to Bernard Carreau, which is on file in the Central Records Unit, Room B-099 of the main Commerce building. Therefore, the Department is extending the time limit for completion of the preliminary results until no later than July 31, 2002. We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: January 14, 2002.
