SUPPLEMENTARY INFORMATION: We last published our notice of system of records on September 11, 2001, 66 FR 47228; January 5, 1987 (52 FR 324); February 3, 1987 (52 FR 3344); March 5, 1987 (52 FR 6875); September 7, 1990 (55 FR 37182); and June 7, 1991 (56 FR 26415). We previously published the system identified as FEMA/FIA-2, National Flood Insurance Application and Related Files on November 26, 1982, 47 FR 53492; amended on October 25, 1983, 48 FR 49376; February 17, 1984, 49 FR 6168; May 13, 1985, 50 FR 20007; January 5, 1987, 52 FR 324; July 28, 1988, 53 FR 28437; August 9, 1988, 53 FR 29947.

Proposed New Routine Use

We have created the Repetitive Loss Target Group (RLTG) as part of an initiative to reduce claims under the National Flood Insurance Program (NFIP) with respect to properties that have sustained multiple losses. Generally, we have defined repetitive loss properties as those that have had at least two losses of \$1,000 or more within any 10-year period. The RLTG is a subset of these properties that include currently insured properties that have either:

- (1) Two or more losses that in the aggregate, equal or exceed the current value of the insured property; or
 - (2) Four or more losses.
- Approximately 11,000 properties are included in the RLTG.

Inclusion of a property in the RLTG results in the transfer of the flood insurance policy to a central facility (Special Direct Facility (SDF)) designed to oversee claims and to coordinate and facilitate mitigation, which will require a new Routine Use to allow transfer of the NFIP Bureau and Statistical Agent RLTG, records to the NFIP's SDF, which has been created for oversight of RLTG activities. Accordingly, a new Routine Use is proposed to permit transfer of

RLTG records from the NFIP Bureau and Statistical Agent to the NFIP Special Direct Facility.

Proposed New Routine Use

We have created the Preferred Risk Policy (PRP) for policyholders (1-4 Family) with limited loss experience only located in B, C, and X Zones. Eligible policyholders receive a discount off the standard flood insurance rate. To be eligible to receive this benefit, however, there are certain conditions based upon the building's loss history, regardless of ownership that the owner must meet.

If any of the following conditions, arising from one or more occurrences, exist then the dwelling is *not* eligible:

- (1) 2 loss payments, each more than \$1,000;
- (2) 3 or more loss payments, regardless of amount;
- (3) 2 Federal Disaster Relief payments, each more than \$1,000;
- (4) 3 Federal Disaster Relief payments, regardless of amount; or
- (5) 1 flood insurance claim payment and 1 flood disaster relief payment (including loans and grants), each more than \$1,000.

If a policyholder applies for a PRP, and is denied, he needs NFIP records regarding the property's loss history before his or her ownership to determine whether the NFIP's determination was correct. Currently, these records are protected from disclosure. Accordingly, we propose a new Routine Use to permit release of a property's prior loss history to a policyholder whose PRP application we have denied.

Proposed New Routine Use

In many instances FEMA must work closely with federal agencies, state and local governments in order to achieve the objectives of the NFIP. In this connection, FEMA will need to transfer NFIP records to federal agencies and state and local governments for the purpose of analysis, research and

feasibility studies. Accordingly, we propose a new Routine Use to permit release of NFIP records to federal agencies and state and local governments for research, analysis and feasibility studies.

Revision of an Existing System of Records

We are also revising our existing routine use system, FIMA/FEMA-2 to reflect changes mandated by the passage of time.

New System of Records

We are adding new systems of records to reflect the growth and expansion of the NFIP.

Dated: January 10, 2002.

Michael D. Brown,
General Counsel.

The proposed new routine uses, and the new and revised systems of records follow:

We will list the specific routine uses applicable to an individual system of record under the "Routine Use" section of the notice itself and they will correspond to the numbering of the routine uses published below. These uses are published only once in the interest of simplicity, economy and to avoid redundancy, rather than repeating them in every individual system notice.

(1) *Routine Use—Law Enforcement:* A record from any FEMA system of records, which indicates either by itself or in combination with other information within FEMA's possession, a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, and which we may disclose, as a routine use, to the appropriate agency whether Federal, State, territorial, local or foreign, or foreign agency or professional organization, charged with the responsibility of enforcing, implementing, investigating or prosecuting such violation or charged with implementing the statute, rule, regulation or order issued under it.

(2) *Routine Use—Disclosure When Requesting Information:* We may disclose as a routine use a record from a FEMA system of records to a Federal, State or local agency, maintaining civil, criminal, regulatory, licensing or other enforcement information or other pertinent information, such as current licenses, if necessary, to obtain information, relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

(2) *Routine Use—Disclosure of Requested Information:* We may disclose as a routine use a record from a FEMA system of records to a Federal agency, in response to a written request in connection with the hiring or retention of an employee, the issuance of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the

requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

(3) *Routine Use—Grievance, Complaint, Appeal:* We may disclose as a routine use a record from a FEMA system of records to an authorized appeal or grievance examiner, formal complaints examiner, equal opportunity investigator, arbitrator, mediator, or other duly authorized official engaged in investigation or settlement of a grievance, complaint, or appeal by an employee. We may disclose a record from this system of records to the Office of Personnel Management as government-wide records; we will consider those records as part of the government-wide system. We may transfer as a routine use other official personnel records covered by notices published by FEMA and considered to be separate systems of records to the Office of Personnel management in accordance with official personnel programs and activities.

(5) *Routine Use—Congressional Inquiries:* We may disclose as a routine use a record from a FEMA system of records to a Member of Congress or to a Congressional staff member in response to an inquiry of the Congressional office made at the request of the individual about whom the record is maintained.
