

Agenda: To review and evaluate grant applications.

Place: Georgetown Suites, 1111 30th Street, NW., Washington, DC 20007.

Contact Person: Marcia Steinberg, PHD, Scientific Review Administrator, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5140, MSC 7840, Bethesda, MD 20892, (301) 435-1023, steinberm@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel.

Date: February 8, 2002.

Time: 1:00 PM to 4:00 PM.

Agenda: To review and evaluate grant applications.

Place: Holiday Inn Georgetown, 2101 Wisconsin Avenue, NW., Washington, DC 20007.

Contact Person: Ramesh K. Nayak, PHD, Scientific Review Administrator, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5146, MSC 7840, Bethesda, MD 20892, (301) 435-1026.

(Catalogue of Federal Domestic Assistance Program Nos. 93.306, Comparative Medicine, 93.306; 93.333, Clinical Research, 93.333, 93.337, 93.393-93.396, 93.837-93.844, 93.846-93.878, 93.892, 93.893, National Institutes of Health, HHS)

Dated: January 16, 2002.

LaVerne Y. Stringfield,

Director, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection

Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Prevention Program Outcomes Monitoring System (PPOMS)—New—Section 516 of the Public Health Service Act [42 U.S.C. 290bb-22] directs SAMHSA's CSAP to "address priority substance abuse prevention needs of regional and national significance through the provision of knowledge development and application projects for prevention and the conduct or support of evaluations of such projects."

Since 1999, CSAP has used the National Registry of Effective Prevention Programs (REPP, OMB No. 0920-0210) to review and rate substance abuse prevention programs utilized nationwide. Through NREPP, CSAP has expanded its information collection to include programs conducted by entities external to CSAP, including state and local governments, nonprofit entities, and the private sector. Programs that are well implemented, rigorously evaluated, produce consistent positive results, and are able to assist in the dissemination effort are selected as model programs. Model programs are then promoted to substance abuse professionals and practitioners nationwide through various channels, including CSAP's State Initiative Grant recipients.

Involving the completion of matrices and a survey, PPOMS will quantify the extent of the field application of NREPP identified science-based prevention programs. PPOMS will also examine such parameters as program fidelity and adaptation, for science-based prevention programs identified through NREPP, as well as documented outcomes of program effectiveness.

PPOMS utilizes a data collection system that will consider several

parameters related to CSAP science-based program replication. The PPOMS matrix and survey will: gauge practitioner access to CSAP science-based materials and programs, estimate the proportion of practitioners replicating these programs, quantify and explain barriers to replication and facilitating structures and mechanisms that aid in program replication, document the degree of fidelity and adaptations of program replications, and measure program replication outcomes. Knowledge of these factors will allow CSAP to better direct its dissemination of NREPP identified programs, provide access to training and technical assistance for practitioners, and gain a more comprehensive understanding of the decision making processes involved in choosing NREPP identified programs for replication.

Substance abuse practitioners will be identified to participate in PPOMS by state government officials involved in administering, funding, and monitoring prevention programs nationwide. Aside from State Incentive Grant coordinators and regional representatives for programs such as: the Department of Education's Safe and Drug Free Schools Program, and the Office of Juvenile Justice and Delinquency Prevention, various state and regional offices, and member organizations such as the National Prevention Network and the National Association of State Alcohol/Drug Abuse Directors, will refer prevention program practitioners and professionals to participate in PPOMS.

Data derived from the Prevention Program Outcomes Monitoring Systems (PPOMS) will be used by the Center for Substance Abuse Prevention (CSAP) to determine the extent, magnitude, and effectiveness of CSAP's science-based program replications. The Prevention Programs Outcomes Monitoring System will determine the efficacy of NREPP in identifying, promoting, and disseminating the best science-based substance abuse prevention programs to the field and subsequently, to the American public. The final report of PPOMS findings will contain appropriate information for use by governmental agencies, private organizations, and nonprofit entities.

Annual burden estimates for PPOMS are shown in the following table.

Form name	Number of respondents	Responses per respondent	Hours per response	Total hour burden
PPOMS Matrix	400	1	.167	67
PPOMS Survey	400	1	.333	133
Total	400	200

Send comments to Nancy Pearce, SAMHSA Reports Clearance Officer, Room 16-105, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 16, 2002.

Richard Kopanda,

Executive Officer, SAMHSA.

BILLING CODE 4162-20-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of an Application for an Incidental Take Permit for Silvicultural Activities, Gates County, North Carolina

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Mrs. Clarine Cooper and Mrs. Canzata Turner (Applicants) have applied for an incidental take permit (ITP) from the Fish and Wildlife Service (Service) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*), as amended. The proposed permit would allow take of one group of the red-cockaded woodpecker (*Picoides borealis*), a federally-listed, endangered species, incidental to silvicultural activities on the applicants' property in Gates County, North Carolina (Project).

The Applicants' Habitat Conservation Plan (HCP) describes the mitigation measures proposed to address the effects of the Project to the protected species. These measures are outlined in the **SUPPLEMENTARY INFORMATION** section below. The Service has determined that the Applicant's proposal, including the proposed mitigation measures, will individually and cumulatively have a minor or negligible effect on these species covered in the HCP. Therefore, the ITP is a "low-effect" project and would qualify as a categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of Interior Manual (516 DM2, Appendix 1 and 516 DM 6, Appendix 1).

The Service announces the availability of the HCP for the incidental

take application. Copies of the HCP may be obtained by making a request to the Regional Office (*see ADDRESSES*). Requests must be in writing to be processed. This notice is provided pursuant to Section 10 of the Endangered Species Act and NEPA regulations (40 CFR 1506.6).

The Service specifically requests information, views, and opinions from the public via this Notice on the federal action. Further, the Service specifically solicits information regarding the adequacy of the HCP as measured against the Service's ITP issuance criteria found in 50 CFR parts 13 and 17.

If you wish to comment, you may submit comments by any one of several methods. Please reference permit number TE048566-0 in such comments. You may mail comments to the Service's Regional Office (*see ADDRESSES*). You may also comment via the Internet to david_dell@fws.gov. Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from the Service that we have received your internet message, contact us directly at either telephone number listed below (*see FOR FURTHER INFORMATION CONTACT*).

Due to Court order, the Department of Interior has temporarily lost access to the internet and may not regain it by the time this notice is published. Commentors are encouraged to submit comments by mail or express courier, or to call (*see FOR FURTHER INFORMATION CONTACT*) to confirm whether our internet capability has been restored.

Finally, you may hand deliver comments to either Service office listed below (*see ADDRESSES*). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your

name and address, you must state this prominently at the beginning of your comments. We will not; however, consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DATES: Written comments on the permit application, Determination of Low Effect and HCP should be sent to the Service's Regional Office (*see ADDRESSES*) and should be received on or before February 22, 2002.

ADDRESSES: Persons wishing to review the application, HCP, and supporting documentation may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Endangered Species Permits), or Raleigh Field Office, Post Office Box 33726, Raleigh, North Carolina 27636-3726 (Attn: John Hammond). Written data or comments concerning the application, HCP, or supporting documents should be submitted to the Regional Office. Requests for the documentation must be in writing to be processed. Please reference permit number TE048566-0 in such comments, or in requests of the documents discussed herein.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional Permit Coordinator, (*see ADDRESSES* above), telephone: 404/679-7313; or Mr. John Hammond, Fish and Wildlife Biologist, Raleigh Field Office, (*see ADDRESSES* above), telephone 919/856-4520, Ext 28.

SUPPLEMENTARY INFORMATION: The red-cockaded woodpecker is a territorial, non-migratory bird species once common in the southern Coastal Plain from east Texas to Florida and north to Maryland, Missouri, and Kentucky. Red-cockaded woodpeckers roost and nest in cavities excavated in large, living pine trees 60 years old or older. The red-cockaded woodpecker is a cooperative breeder that lives in family groups of one to nine birds, with each bird nesting in a separate cavity; the aggregate of cavity trees used by a group is called a cluster. Red-cockaded woodpeckers
