

January 30, 2002, until 1200 hrs, A.l.t., February 4, 2002.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of Atka mackerel TAC for non-jig gear in the Eastern Aleutian District and the Bering Sea subarea is 2,518 metric tons (mt) as established by an emergency rule implementing 2002 harvest specifications and associated management measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002). See § 679.20 (a)(8)(ii).

In accordance with § 679.20 (d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the A season allowance of TAC for non-jig gear Atka mackerel in the Eastern Aleutian District (Area 541) and the Bering Sea subarea will be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 1,918 mt, and is setting aside the remaining 600 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20 (d)(1)(iii), the Regional Administrator finds that this directed fishing allowance soon will be reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the Eastern Aleutian District and the Bering Sea subarea of the BSAI.

In accordance with § 679.20 (a)(8)(iii)(C), the Regional Administrator is opening the first directed fisheries for Atka mackerel within the HLA in areas 542 and 543. The opening is to occur 48 hours after the closure of the area 541 Atka mackerel directed fishery. The Regional Administrator has established the opening date for the second HLA directed fisheries as 48 hours after the closure of the first HLA fisheries in both 542 and 543. Consequently, NMFS is opening directed fishing for Atka mackerel in the HLA of areas 542 and 543 in accordance with the periods listed under the **DATES** section of this publication.

In accordance with § 679.20 (a)(8)(iii), vessels using trawl gear for directed

fishing for Atka mackerel have previously registered with NMFS to fish in the HLA fisheries in areas 542 and/or 543. NMFS has randomly assigned each vessel to the platoon or platoons associated with the directed fishery or fisheries for which they have been registered. NMFS has notified the operator of each vessel as to which platoon each vessel has been assigned by NMFS. (See the notification appearing in this publication of the **Federal Register**.)

In accordance with § 679.20 (a)(8)(ii)(C)(1), the A season harvest limit of the seasonal TAC in areas 542 and 543 are 6,605 mt and 5,467 mt respectively. Based on those seasonal apportionments and the proportion of the number of vessels in each platoon compared to the total number of vessels participating in the HLA directed fishery for area 542 or 543 during the A season, the harvest limit for each HLA directed fisheries for areas 542 and 543 are as follows: For the first directed fishery in area 542: 3,302 mt; for the first directed fishery in area 543: 2,733 mt; for the second directed fishery in area 542: 3,302 mt; for the second directed fishery in area 543: 2,733 mt.

In accordance with § 679.20 (a)(8)(iii)(E), the Regional Administrator has established the closure dates of the Atka mackerel directed fisheries in the HLA for areas 542 and 543 based on the amount of the harvest limit and the estimated fishing capacity of the vessels assigned to the platoons participating in the respective fisheries. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the HLA of areas 542 and 543 in accordance with the periods listed under the **DATES** section of this action.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the A season allowance of the 2002 TAC of Atka mackerel in the Eastern Aleutian District and the Bering Sea subarea and to prevent exceeding the A season HLA limit of the 2002 TAC of Atka mackerel allocated to the Central and Western Aleutian Districts constitutes good cause to waive the requirement to provide prior notice opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20 (b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely

fashion to prevent exceeding the A season allowance of the 2002 TAC of Atka mackerel in the Eastern Aleutian District and the Bering Sea subarea and to prevent exceeding the A season Atka mackerel HLA harvest limits established for the Central (area 542) and Western (area 543) Aleutian Districts constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by §§ 679.20 and 679.22 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 17, 2002.

Jonathan M. Kurland,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 011218304-1304-01; I.D. 011702B]

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel Platoons in Areas 542 and 543

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification

SUMMARY: NMFS is notifying operators of registered vessels of their platoon assignments for the Atka mackerel fishery in harvest limit areas (HLA) in Statistical Area (area) 542 and/or 543 of the Aleutian Islands subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the harvest of the A season HLA limits established for area 542 and area 543 pursuant to the 2002 Atka mackerel total allowable catch and associated Steller sea lion protection measures.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 18, 2002, until 1200 hrs, A.l.t., September 1, 2002.

FOR FURTHER INFORMATION CONTACT: Andrew Smoker, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for the Groundfish Fishery of the

Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In the emergency rule implementing 2002 harvest specifications and Steller sea lion protection measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002), NMFS established HLAs for Atka mackerel directed fishing in areas 542 and 543. Operators of vessels had until January 15, 2002, to register to fish in the HLA in area 542 and/or 543. NMFS is required to randomly assign vessels between these areas to reduce the amount of daily catch in the HLA by about half and to disperse the fishery over time.

In accordance with § 679.20(a)(8)(iii)(A), operators of eight vessels using trawl gear for directed fishing for Atka mackerel have registered with NMFS to fish in the HLA fisheries in areas 542 and/or 543. In accordance with § 679.20(a)(8)(iii)(B) the Administrator, Alaska Region has

randomly assigned each vessel to the HLA directed fishery for Atka mackerel for which the vessel operators have registered and is now notifying each vessel operator of the assignment.

Vessels assigned to Platoon A that will participate in the first HLA directed fishery in area 542 and/or the second HLA directed fishery for area 543 in accordance with the vessel's registration under § 679.20(a)(8)(iii)(A) are as follows: Federal Fishery Permit number (FFP) 2733 Seafreeze Alaska; FFP 4093 Alaska Victory; FFP 3835 Seafisher; and FFP 3819 Alaska Spirit.

Vessels assigned to Platoon B that will participate in the first HLA directed fishery in area 543 and/or the second HLA directed fishery for 542 in accordance with the vessel's registration under § 679.20(a)(8)(iii)(A) are as follows: FFP 2443 Alaska Juris; FFP 3400 Alaska Ranger; FFP 2134 Ocean Peace; and FFP 3423 Alaska Warrior.

Classification

This action responds to the best available information. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action that notifies each vessel of their platoon assignment to

allow the harvest of the A season HLA limits established for area 542 and area 543 constitutes good cause to waive the requirement to provide prior notice opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(a)(8)(iii), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion that notifies each vessel of their platoon assignment to allow the harvest of the A season HLA limits established for area 542 and area 543 constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by §§ 679.20 and 679.22 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*
