

Clerical personnel, at an hourly rate of \$10, can perform the recordkeeping tasks required under the Rule. Based on the estimated hour burden of 22,300 hours, the estimated cost burden for recordkeeping is \$223,000 (\$10 × 22,300 hours).

The two hours required of each provider, on average, to update price lists should consist of approximately 1.5 hours of managerial or professional time, at \$75 per hour, and .5 hours of clerical time, at \$10 per hour, for a total of \$117.50 per provider. Thus, the estimated total cost burden for maintaining price lists is \$2,620,250 (\$117.50 × 22,300 providers).

The cost of providing written documentation of the goods and services selected by the consumer is 2,899 hours of managerial or professional time at approximately \$75 per hour, or \$217,425.

The cost of responding to telephone inquiries about offerings or prices is 10,350 hours of managerial or professional time at \$75, or \$776,250.

The total labor cost of the three disclosure requirements imposed by the Funeral Rule is \$3,613,925 (\$2,620,250 + \$217,425 + \$776,250). The total labor cost for recordkeeping and disclosures is \$3,837,000 (\$223,000 for recordkeeping + \$3,613,925 for disclosures), rounded to the nearest thousand.

Capital or other non-labor costs: The Rule imposes minimal capital costs and no current start-up costs. The Rule first took effect in 1984 and the revised Rule took effect in 1994, so funeral providers should already have in place capital equipment to carry out tasks associated with Rule compliance. Moreover, most funeral homes already have access, for other business purposes, to the ordinary office equipment needed for compliance, so the Rule likely imposes minimal additional capital expense.

Compliance with the Rule, however, does entail some expense to funeral providers for printing and duplication of price lists. Based on a rough estimate of 300 pages per year per provider for copies of the various price lists, at 5 cents per page, and 22,300 providers, the total cost burden associated with printing and copying is \$334,500. In addition, the estimated 2,899 providers not already providing written documentation of funeral arrangements apart from the Rule will incur additional printing and copying costs. Assuming that those providers use the standard two-page form shown in the Compliance Guide, at 5 cents per page, at an average of 20 funerals per year, the added cost burden would be \$5,798. Thus, estimated non-labor costs are

\$340,000, rounded to the nearest thousand.

The cost of training associated with Rule compliance is generally included in continuing education requirements for licensing and voluntary certification programs. Moreover, the FTC has provided its Compliance Guide to all funeral providers at no cost, and additional copies are available on the FTC web site or by mail. Accordingly, the Rule imposes no additional training costs.

William E. Kovacic,

General Counsel.
