

1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when the Agency can meaningfully consider them and respond to them in the final supplemental environmental impact statement.

Comments on the draft SEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft supplemental statement. Comments may also address the adequacy of the draft SEIS. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.
