

notice, for interested parties to provide written comments on the new lindane health effects information as well as risk management proposals or ideas on lindane. Such comments and proposals could address ideas about how to manage dietary, occupational, or ecological risks on specific lindane use sites or crops across the United States or in a particular geographic region of the country. To address dietary risk, for example, commenters may choose to discuss the feasibility of lower application rates, increasing the time interval between application and harvest ("pre-harvest intervals"), modifications in use, or suggest alternative measures to reduce residues contributing to dietary exposure. For occupational risks, commenters may suggest personal protective equipment or technologies to reduce exposure to workers and pesticide handlers. For ecological risks, commenters may suggest ways to reduce environmental exposure, e.g., exposure to birds, fish, mammals, and other non-target organisms. All comments and proposals must be received by EPA on or before April 1, 2002 at the addresses given under Unit III.A. Comments and proposals will become part of the Agency record for the pesticide specified in this notice.

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the FCC consolidates the proceeding of Great Western Aviation and Utah Jet Center LLC., application for renewal of aeronautical advisory (unicom) station KQA7 in Logan, Utah. This consolidation allows both parties to have a comparative hearing. This gives the commission an opportunity to determine which applicant would

provide the public with better unicom service.

On November 24, 2000, Great Western Aviation, Inc. (Great Western) filed an application for renewal of aeronautical advisory (unicom) station KQA7 in Logan, Utah. Unicom stations provide information concerning flying conditions, weather, availability of ground services, and other information to promote the safe and expeditious operation of aircraft. On December 7, 2000, Utah Jet Center, LLC (Utah Jet Center) filed an application for a new unicom station at the same location. Both applicants propose to provide service at Logan-Cache Airport, where there is no control tower or FAA flight service station. Under § 87.215(b) of the Commission's rules, only one unicom station may be licensed at such airports. Accordingly, these applications are mutually exclusive and must therefore be designated for comparative hearing.

2. *It is further ordered* that the burden of proceeding with the introduction of evidence with respect to all the issues listed here shall be upon Great Western
