

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 122****EPA Administered Permit Programs: The National Pollutant Discharge Elimination System***CFR Correction*

In Title 40 of the Code of Federal Regulations, Parts 100 to 135, revised as of July 1, 2001, § 122.26 is corrected by revising paragraph (c)(1)(i)(E)(4) and removing and reserving paragraph (c)(2) to read as follows:

§ 122.26 Storm water discharges (applicable to State NPDES programs, see § 123.25).

2000 Biennial Regulatory Review—Spectrum Aggregation Limits For Commercial Mobile Radio Services; Correction

AGENCY: Federal Communications Commission.

ACTION: Final rule; correction.

SUMMARY: The Federal Communications Commission published in the **Federal**

Register of January 14, 2002, a document concerning the 2000 biennial review of the Commercial Mobile Radio Service (CMRS) spectrum aggregation limit, or “spectrum cap,” and cellular cross-interest rules. Inadvertently amendatory instruction no. 2 to 47 CFR 22.942 contained an error. This document corrects that instruction.

DATES: Effective February 13, 2002.

FOR FURTHER INFORMATION CONTACT: Lauren Kravetz Patrich or John Branscome, Commercial Wireless Division, Wireless Telecommunications Bureau, at (202) 418-0620.

SUPPLEMENTARY INFORMATION: The Federal Communications Commission published a document in the **Federal Register** of January 14, 2002, (67 FR 1626). This correction revises amendatory instruction no. 2 to 47 CFR 22.942. In FR Doc. 02-868, published in the **Federal Register** of January 14, 2002 (67 FR 1626) make the following correction. On page 1642, in the third column, correct amendatory instruction no. 2 to read as follows:

§ 22.942 [Corrected]

2. Section 22.942 is amended by revising the section heading and paragraphs (a) and (c) to read as follows:

* * * * *

Dated: January 24, 2002.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION**47 CFR Part 87**

[WT Docket No. 00-77; FCC 01-378]

Accommodation of Advanced Digital Communications in the 117.975-137 MHz Frequency Band and Implementation of Flight Information Services in the 136-137 MHz Frequency Band

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document amends the Commission's rules to specify that very high frequency (VHF) aeronautical stations operating with phase modulation digital data emissions shall limit their power and out-of-band emissions in accord with recently modified international Standards and Recommended Practices (SARPs) adopted by the International Civil

Aviation Organization (ICAO). The Commission has adopted these amendments in response to a petition for partial reconsideration of the *Report and Order* in this proceeding, filed by Aeronautical Radio, Inc. (ARINC). These rule amendments will serve the public interest because the revised standards have been accepted by the aviation community globally and will assist the aviation industry in implementing new data communications systems. In addition, by facilitating the deployment of advanced aviation communications technology, these amendments will serve the goals of aviation safety and efficiency that underlie this proceeding.

EFFECTIVE DATE: Effective March 4, 2002.

FOR FURTHER INFORMATION CONTACT: Jeffrey Tobias, Wireless Telecommunications Bureau at (202) 418-0680.

SUPPLEMENTARY INFORMATION: 1. This is a summary of the Commission's *Memorandum Opinion and Order*, FCC 01-378, adopted on December 21, 2001, and released on December 28, 2001. The full text of this *Memorandum Opinion and Order* is available for inspection and copying during normal business hours in the FCC Reference Center, Room CY-A257, 445 12th Street, SW., Washington, D.C. 20554. The complete text may be purchased from the Commission's copy contractor, Qualex International, Portals II, 445 12th Street, S.W., Room CY-B402, Washington, D.C. 20554.

Summary of Report and Order

2. Based on the record in this proceeding, we conclude that we should grant ARINC's petition for partial reconsideration because § 87.139(k) of the Commission's rules, 47 CFR 87.139(k), as adopted in the *Report and Order*, does not reflect recent changes in international standards pertaining to the emission mask and out-of-band power levels for VHF digital aviation communications systems. These modifications of the international SARPs, adopted by the ICAO after the period for submitting comments to the *Notice of Proposed Rulemaking* in this proceeding, 65 FR 41032, July 3, 2000, are to take effect on January 1, 2002. The ICAO has increased the amount of power permissible in the first adjacent channel by 2 dB, specifying that the total amount of power across the first adjacent channel shall not exceed 2 dBm, rather than the 0 dBm now specified in § 87.139(k)(1). The ICAO has also specified that the power measured over a 16 kHz bandwidth centered in either first adjacent 25 kHz channel shall be limited to -18 dBm,
