FOR FURTHER INFORMATION CONTACT: Mr. Roger K. Wiebusch, Bridge Administrator, telephone (314) 539-3900 extension 378.

SUPPLEMENTARY INFORMATION:

Background

Complaints have been received alleging that the bridge is unreasonably obstructive to navigation. Information available to the Coast Guard indicates two bridge allisions have occurred and numerous other bridge allisions have been narrowly avoided between 1991 and 2000. The navigation opening of the bridge is 200 feet. The Vancouver Railroad Bridge is located 0.8 mile downstream from the I-5 Highway Bridge. The highway bridge influences the approach of vessels to the navigation span of the railroad bridge. Based on the

comments received at the public hearing, the bridge may be found to be unreasonably obstructive to navigation. Such a finding may require relocating and increasing the horizontal clearance of the railroad bridge to meet the needs of navigation.
