BILLING CODE 7590-01-M

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

I. Background

Pursuant to Public Law 97-415, the
 U.S. Nuclear Regulatory Commission
 (the Commission or NRC staff) is
 publishing this regular biweekly notice.
 Public Law 97-415 revised section 189
 of the Atomic Energy Act of 1954, as

amended (the Act), to require the
 Commission to publish notice of any
 amendments issued, or proposed to be
 issued, under a new provision of section
 189 of the Act. This provision grants the
 Commission the authority to issue and
 make immediately effective any
 amendment to an operating license
 upon a determination by the
 Commission that such amendment
 involves no significant hazards
 consideration, notwithstanding the
 pendency before the Commission of a
 request for a hearing from any person.

This biweekly notice includes all
 notices of amendments issued, or
 proposed to be issued from January 11,
 2002 through January 24, 2002. The last
 biweekly notice was published on
 January 22, 2002 (67 FR 2917).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a
 proposed determination that the
 following amendment requests involve
 no significant hazards consideration.
 Under the Commission's regulations in
 10 CFR 50.92, this means that operation
 of the facility in accordance with the
 proposed amendment would not (1)
 involve a significant increase in the
 probability or consequences of an
 accident previously evaluated; or (2)
 create the possibility of a new or
 different kind of accident from any
 accident previously evaluated; or (3)
 involve a significant reduction in a
 margin of safety. The basis for this
 proposed determination for each
 amendment request is shown below.

The Commission is seeking public
 comments on this proposed
 determination. Any comments received
 within 30 days after the date of
 publication of this notice will be
 considered in making any final
 determination.

Normally, the Commission will not
 issue the amendment until the
 expiration of the 30-day notice period.
 However, should circumstances change
 during the notice period such that
 failure to act in a timely way would
 result, for example, in derating or
 shutdown of the facility, the
 Commission may issue the license
 amendment before the expiration of the
 30-day notice period, provided that its
 final determination is that the
 amendment involves no significant
 hazards consideration. The final
 determination will consider all public
 and State comments received before
 action is taken. Should the Commission
 take this action, it will publish in the
