[OMB Control No. 9000-0062]

**Federal Acquisition Regulation;  
Proposed Collection; Material and  
Workmanship**

**AGENCIES:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for an extension to an existing OMB clearance.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat will be submitting to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning material and workmanship. The clearance currently expires on April 30, 2002.

*Public comments are particularly invited on:* Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

**DATES:** Submit comments or before April 9, 2002.

**ADDRESSES:** Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC 20503, and a copy to the General Services Administration, FAR Secretariat (MVP), 1800 F Street, NW., Room 4035, Washington, DC 20405. Please cite OMB Control No. 9000-0062, Material and Workmanship, in all correspondence.

**FOR FURTHER INFORMATION CONTACT:** Cecelia Davis, Acquisition Policy Division, GSA (202) 219-0202.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

Under Federal contracts requiring that equipment (e.g., pumps, fans, generators, chillers, etc.) be installed in a project, the Government must determine that the equipment meets the contract requirements. Therefore, the contractor must submit sufficient data on the particular equipment to allow the Government to analyze the item.

The Government uses the submitted data to determine whether or not the equipment meets the contract requirements in the categories of performance, construction, and durability. This data is placed in the contract file and used during the inspection of the equipment when it arrives on the project and when it is made operable.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

Standard Form 255 is used by all Executive agencies to obtain information from architect-engineer (A-E) firms interested in a particular project. The information on the form is reviewed by a selection panel composed of professional people and assists the panel in selecting the most qualified A-E firm to perform the specific project. The form is designed to provide a uniform method for A-E firms to submit information on experience, personnel, capabilities of the A-E firm to perform, along with information on the consultants they expect to collaborate with on the specific project.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

The FAR clause at 48 CFR 52.236-13 Accident Prevention requires Federal construction contractors to keep records of accidents incident to work performed under the contract that result in death, traumatic injury, occupational disease or damage to property, materials, supplies or equipment. Records of personal inquiries are required by OSHA (OMB Control No. 1220-0029). The FAR requires records of damage to property, materials, supplies or equipment to provide background information when claims are brought against the Government.

If the contract involves work of a long duration, the contractor must submit a written proposal for implementation of the clause. The Accident Prevention Plan, for projects that are hazardous or of long duration, is analyzed by the contracting officer along with the agency safety representatives to determine if the proposed plan will meet the requirement of the safety regulations and applicable statutes. The records maintained by the contractor are used to evaluate compliance and may be used in workmen's compensation cases. The Accident Prevention Plan is placed in the contract file for reference.
