#### Vessel Proposed for Waiver of the U.S.-Build Requirement

(1) Name of vessel and owner for which waiver is requested.

*Name of vessel:* MARQUISATE.  
*Owner:* Alpha 59, Inc.

(2) Size, capacity and tonnage of vessel. According to the applicant: "Length: 59.0 Breadth: 16.0 Depth: 7.7; Capacity: Not more than twelve (12) passengers; Tonnage: Gross—48, Net—38."

(3) Intended use for vessel, including geographic region of intended operation and trade. (4) Date and Place of construction and (if applicable) rebuilding. *Date of construction:* 1979. *Place of construction:* Fumicino, Italy.

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators. According to the applicant: "The impact on other commercial passenger vessel operations should be slight, if not totally non-existent, since my intended route involves being underway for extended periods of time, and few people have that luxury. The only operation that I could possibly conflict with, would be cruise ships, and with the limited size, capacity and duration of each trip, I sincerely believe that my business would pose no problem at all."

(6) A statement on the impact this waiver will have on U.S. shipyards. According to the applicant: "Boat builders in the Florida Keys usually construct vessels much smaller in length than mine. The passengers usually remain on deck so it is not necessary for individual cabins, etc. The boat builders can predict that the vessels they build will be used for commercial fishing, or charter vessels which go as far as 38 nautical miles, if that; at least in the Keys. Vessels are just not in demand for the type of usage that my vessel would be used in."
