DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement
Watershed Cooperative Agreement Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Notice of availability of funds for the Watershed Cooperative Agreement Program.

SUMMARY: The Office of Surface Mining Reclamation and Enforcement (OSM) of the U.S. Department of the Interior is announcing its intent to solicit applications from eligible, not-for-profit candidates for funding under the Watershed Cooperative Agreement Program to undertake local acid mine drainage reclamation projects.

DATES: Applications for the cooperative agreements should be submitted to the appropriate individual listed under ADDRESSES AND FURTHER INFORMATION starting February 12, 2002. Applications will be accepted until all available funds have been awarded.

SUPPLEMENTARY INFORMATION: For Fiscal Year 2002, OSM expects to award up to $2.7 million dollars to eligible not-for-profit groups to undertake actual construction projects to clean up streams impacted by acid mine drainage. The maximum award amount for each cooperative agreement normally will be $100,000. The cooperative agreements will have a performance period of two years. The funds primarily are to be used for the construction phase of the project; however, any cost (administrative or construction) associated with the completion of the project is allowable. The requested OSM funding should be the final amount necessary to complete the project. There must be demonstrated public support for the project.

Eligible applicants are not-for-profit, established organizations with IRS 501(c)(3) status. Applicants must have other partners, contributing either the funding or in-kind services needed to complete the project.

Projects in the following States are eligible: Alabama, Illinois, Indiana, Iowa, Kentucky, Maryland, Missouri, Ohio, Oklahoma, Pennsylvania, Tennessee, Virginia and West Virginia. Projects must meet eligibility criteria for coal projects outlined in Section 404 of the Surface Mining Control and Reclamation Act of 1977.

Lands and water eligible for reclamation or drainage abatement expenditures under this title are those which were mined for coal or which were affected by such mining, wastebanks, coal processing, or other coal mining processes ** and abandoned or left in an inadequate reclamation status prior to the date of enactment of this Act [August 3, 1977], and for which there is no continuing reclamation responsibility under State or other Federal laws.

The project must produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. There must be a plan to address any ongoing operation/maintenance considerations.

Two copies of a complete application should be submitted to the appropriate Appalachian Clean Streams Coordinator identified under ADDRESSES AND FURTHER INFORMATION. Awards are subject to the availability of funds. Applications will receive technical and financial management reviews.

Glenda Owens,
Acting Director, Office of Surface Mining Reclamation and Enforcement.
