

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Health Resources and Services Administration

#### Lists of Designated Primary Medical Care, Mental Health, and Dental Health Professional Shortage Areas

**AGENCY:** Health Resources and Services Administration, HHS.

**ACTION:** Notice.

**SUMMARY:** This notice provides lists of all areas, population groups, and facilities designated as primary medical care, mental health, and dental health professional shortage areas (HPSAs) as of May 23, 2001. HPSAs are designated or withdrawn by the Secretary of Health and Human Services (HHS) under the authority of section 332 of the Public Health Service (PHS) Act.

**FOR FURTHER INFORMATION CONTACT:** Requests for further information on the HPSA designations listed below and requests for additional designations, withdrawals, or reinstatement of a withdrawn designation should be submitted to Jerilyn A. Thornburg, R.N., M.P.H., Director, Division of Shortage Designation, Bureau of Health Professions, Health Resources and Services Administration, 4350 East-West Highway, Bethesda, Maryland 20814 (301-594-0816).

#### SUPPLEMENTARY INFORMATION:

##### 1. Background

Section 332 of the PHS Act, 42 U.S.C. 254e, provides that the Secretary of HHS shall designate HPSAs based on criteria established by regulation. HPSAs are defined in section 332 to include (1) urban and rural geographic areas with shortages of health professionals, (2) population groups with such shortages, and (3) facilities with such shortages. Section 332 further requires that the Secretary annually publish a list of the designated geographic areas, population groups, and facilities. The list of HPSAs is to be reviewed at least annually and revised as necessary. The Health Resources and Services Administration's (HRSA) Bureau of Health Professions (BHP) has the responsibility for designating and updating HPSAs.

Public or private nonprofit entities are eligible to apply for assignment of National Health Service Corps (NHSC) personnel to provide primary health services in or to these HPSAs. NHSC health professionals with a service obligation may serve only in federally designated HPSAs. Programs with clinical training sites located in HPSAs

are eligible to receive priority for certain residency training program grants administered by BHP.

Several programs administered by the Center for Medicare and Medicaid Services (formerly the Health Care Financing Administration) also use the HPSA designation. Certain qualified providers in HPSAs are eligible for increased levels of Medicare and Medicaid reimbursement.

##### 2. Development of the Designation and Withdrawal Lists

Criteria for designating HPSAs were published as final regulations (42 CFR part 5) in 1980. Criteria were then defined for each of seven health professional types (primary medical care, dental, psychiatric, vision care, podiatric, pharmacy, and veterinary care). The criteria for correctional facility HPSAs were revised at 54 FR 8738 in 1989, and the criteria for psychiatric HPSAs were expanded to mental health HPSAs at 57 FR 2477 in 1992. The currently-funded PHS programs which use the HPSA designations involve only the primary medical care, mental health, or dental HPSAs.

Individual requests for designation or withdrawal of a particular area, population group, or a facility as a HPSA are received and reviewed continuously by BHP. The review process includes routine submission of such requests to the appropriate State Health Planning and Development Agency (SHPDA) and/or a unit of the State Health Department, the Governor, and other interested organizations and individuals for their comments and recommendations. Requests regarding primary medical care and mental health HPSAs are also submitted to the appropriate State medical society for comment, and dental HPSA requests are submitted to the appropriate State dental society.

Annually, lists of designated HPSAs are provided to all SHPDAs and/or State health departments, State medical and dental societies and others, together with a request to review and update the data on which the designations are based. Emphasis is placed on updating those designations which are more than three years old or where significant changes relevant to the designation criteria have occurred.

Recommendations for possible additions, continuations, revisions or withdrawals from the HPSA list are reviewed by BHP, and the review findings are provided by letter to the agency or individual requesting action or providing data, with copies to other interested organizations and

individuals. These letters constitute the official notice of designation as a HPSA, rejection of recommendations for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list. Designations (or revisions of designations) are effective as of the date of the notification letter from BHP. Proposed withdrawals become effective only after interested parties in the area affected have been afforded the opportunity to submit additional information to BHP in support of its continued or revised designation. If no new data are submitted or if the BHP review confirms the proposed withdrawal, the withdrawal becomes effective upon publication in the **Federal Register** of a list of HPSAs that does not include the HPSA for which withdrawal has been proposed.

This notice contains three lists of designated HPSAs. Each list (primary medical care, mental health, and dental) includes all those areas, population groups, and facilities which were designated HPSAs as of May 23, 2001. This notice incorporates the most recent annual review of designated HPSAs and supersedes the HPSA list published in the **Federal Register** on September 15, 2000. The lists below include 2,781 primary medical care, 798 mental health, and 1,580 dental HPSAs.

##### 3. Format of Lists

Each list of designated HPSAs (primary medical care, mental health, and dental) is arranged by State. Within each State, the list is first presented by county. If only a portion (or portions) of a county is (are) designated, or if the county is part of a larger designated service area, or if a population group residing in the county or a facility located in the county has been designated, the name of the service area, population group, or facility involved is listed under the county name. Counties which have a geographic HPSA designation in addition to one or more facility designations within the county are indicated by a "(g)" following the county name.

Following the county listing, a list of any designated service areas is presented, identifying their component parts—counties, towns, townships, census tracts (CTs), minor civil divisions (MCDs), census county divisions (CCDs), block numbering areas (BNAs), or magisterial districts, as defined by the Bureau of the Census. Those counties (or parts of counties included in service areas) which are classified as nonmetropolitan are indicated by an asterisk (\*). "Nonmetropolitan" refers to those

counties not included in the definition of metropolitan areas established by the Office of Management and Budget (OMB Bulletin 99-04 dated June 30, 1999).

Following the service area listing, a list of designated population groups (if any) is presented identifying each group and the geographic area wherein it resides. Following the population group listing, a list by name and location of any separately designated facilities (including prisons, correctional institutions, health centers, or hospitals) is presented.

In addition to the specific listings included in this notice, all Indian tribes which meet the definition of such tribes in the Indian Health Care Improvement Act of 1976, 25 U.S.C. 1603(d), are automatically designated as population groups with primary medical care and dental health professional shortages.

#### 4. Future Updates of Lists of Designated HPSAs

The lists of HPSAs below consist of all those which were designated as of May 23, 2001. It should be noted that additional HPSAs may have been designated by letter since May 23. The appropriate agencies and individuals have been or will be notified of these actions by letter.

Any designated HPSA listed below is subject to withdrawal from designation if new information received and confirmed by HPSAs indicates that the relevant data for the area involved have significantly changed since its designation or that incorrect or incomplete data were used in making the original designation.

All requests for new designations, updates, or withdrawals should be based on the relevant criteria in regulations published at 42 CFR part 5 (1997).

(Authority: 42 U.S.C. 254e)

#### 5. Electronic access address

Information on HPSAs is also available at <http://www.bphc.hrsa.gov/dsd>.

Dated: January 31, 2002.

**Elizabeth M. Duke,**  
Acting Administrator.
