National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List**AGENCY:** Environmental Protection Agency.**ACTION:** Notice of intent to partially delete the California Gulch Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 is issuing a notice of intent to partially delete the subunits A and B, residential waste rock piles, and parks and playgrounds within Operable Unit 9 of the California Gulch Superfund Site (Site), located in Lake County, Colorado, from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Colorado, through the Colorado Department of Public Health and Environment, have determined that all appropriate response actions under CERCLA, other than operation and maintenance and five-year reviews, have been completed. However, this partial deletion does not preclude future actions under Superfund. In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final notice of partial deletion of the California Gulch Superfund Site without prior notice of intent to partially delete because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this partial deletion in the preamble to the direct final partial deletion. If we receive no adverse comment(s) on this notice of intent to partially delete or the direct final notice of partial deletion, we will not take further action on this notice of intent to partially delete. If we receive adverse comment(s), we will withdraw the direct final notice of partial deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final partial deletion notice based on this notice of intent to partially delete. We will not institute a second comment period on this notice of intent to

partially delete. Any parties interested in commenting must do so at this time. For additional information, see the direct final notice of partial deletion which is located in the Rules section of this **Federal Register**.

Acquisition Regulation: Contractor Performance Evaluations**AGENCY:** Environmental Protection Agency.**ACTION:** Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to amend the EPA Acquisition Regulation to revise its policy and procedures regarding the evaluation of contractor performance. This action is necessary because EPA's current regulation eliminates the use of the National Institutes of Health (NIH) Contractor Performance System to record contractor performance histories for construction acquisitions. This revision will allow EPA contracting officers to utilize the NIH system for construction type acquisition in lieu of the Federal Acquisition Regulation prescribed Standard Form 1420, Performance Evaluation (Construction Contracts). The NIH obtained approval from the Civilian Agency Acquisition Council regarding the use of its construction module in lieu of Standard Form 1420.
