

FEDERAL RESERVE SYSTEM**Change in Bank Control Notices; Acquisition of Shares of Bank or Bank Holding Companies**

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the office of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than March 6, 2002.

A. Federal Reserve Bank of Atlanta (Cynthia C. Goodwin, Vice President) 1000 Peachtree Street, N.E., Atlanta, Georgia 30309-4470:

1. *Mr. Edward B. Middleton*, Plaquemine, Louisiana; to acquire additional voting shares of Citizens Bancorporation, Inc., Plaquemine, Louisiana, and thereby indirectly acquire additional voting shares of Citizens Bank & Trust Company, Plaquemine, Louisiana.

Board of Governors of the Federal Reserve System, February 14, 2002.

Robert deV. Frierson,

Deputy Secretary of the Board.

[FR Doc. 02-4114 Filed 2-20-02; 8:45 am]

BILLING CODE 6210-01-S

FEDERAL RESERVE SYSTEM**Formations of, Acquisitions by, and Mergers of Bank Holding Companies**

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank

indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than March 18, 2002.

A. Federal Reserve Bank of Minneapolis (Julie Stackhouse, Vice President) 90 Hennepin Avenue, Minneapolis, Minnesota 55480-0291:

1. *Marshall Bancorp, Inc.*, Minneapolis, Minnesota; to become a bank holding company by acquiring 100 percent of the voting shares of Norkitt Bancorp, Inc., Hallock, Minnesota, and thereby indirectly acquire Northwestern State Bank of Hallock, Hallock, Minnesota.

B. Federal Reserve Bank of Dallas (W. Arthur Tribble, Vice President) 2200 North Pearl Street, Dallas, Texas 75201-2272:

1. *First Community Capital Corporation*, Houston, Texas; to acquire 100 percent of the voting shares of The Express Bank, Houston, Texas.

Board of Governors of the Federal Reserve System, February 14, 2002.

Robert deV. Frierson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Centers for Disease Control and Prevention**

[Program Announcement 02003]

Community-Based Participatory Prevention Research; Notice of Availability of Funds**A. Purpose**

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2002 funds for a grant program for the Office

of Extramural Prevention Research. This program addresses the "Healthy People 2010" focus area, Educational and Community-Based Programs. It is also related to the Department of Health and Human Services Strategic Plan Goal 6: "Strengthen the nation's health sciences research enterprise and enhance its productivity through the Prevention Research Initiative."

The purpose of the program is to stimulate investigator-initiated participatory research on community-based approaches to prevention. Findings from these projects should advance the practice of public health and policy in order to promote health and reduce disease, disability, and injury. Specifically, this announcement seeks to support multi-disciplinary, multi-level, participatory research that will enhance the capacity of communities and population groups to address health promotion and the prevention of disease, disability and injury.

Multi-level research involves interventions directed at two or more levels, such as individual, family, neighborhood, organizational, broader community (e.g., city, county, state), environmental and/or policy or legislative levels. Community refers to populations that may be defined by geography, race, ethnicity, gender, sexual orientation, or disability or other health conditions, or to groups that have a common interest or cause, such as health or service agencies and organizations, practitioners, policy makers, or lay public groups with public health concerns.

Participatory research involves collaboration with the community being studied, at least in formulating the research questions and in interpreting and applying research findings, and, if the community so chooses, in selecting methods and analyzing data. This announcement is not limited to any particular model of participatory research.

While the direction of the research must be guided by the expressed needs and interests of the community engaged in the study, this program is especially targeted to supporting cross-cutting research (i.e., research that considers interventions or methods that would now or in the future be applicable to more than one health condition).

B. Eligible Applicants

Applications may be submitted by public and private nonprofit organizations and by governments and their agencies; that is, universities, colleges, research institutions, hospitals, other public and private nonprofit

organizations, State and local governments or their bona fide agents, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau, federally recognized Indian tribal governments, Indian tribes, or Indian tribal organizations.

Note: Title 2 of the United States Code section 1611 states that an organization described in section 501(c)(4) of the Internal Revenue Code that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, or loan.

Additional applicant requirements are:

1. A principal investigator who has conducted research, published the findings in peer-reviewed journals, and has specific authority and responsibility to carry out the proposed project.
2. Demonstrated experience (on the applicant's project team) in conducting, evaluating, and publishing prevention research in peer-reviewed journals.
3. Effective and well-defined working relationships within the performing organization and with partnering communities (including public health agencies) that will ensure implementation of the proposed activities.
4. The overall match between the applicant's proposed theme and research objectives, and the program's interests as described under the heading "Programmatic Interests."

C. Availability of Funds

Approximately \$13,000,000 is available in FY 2002 to fund approximately 30 awards. It is expected that the average award will be \$450,000, ranging from \$400,000 to \$500,000. It is expected that the awards will begin on or about September 30, 2002, and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress as evidenced by required reports and the availability of funds.

D. Program Requirements

1. Recipient Requirements

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the following activities:

Specifically, because these projects are participatory and community-based and embrace both research and its application, program applicants are

expected to maximize opportunities for information exchange between institutional researchers and community members (even if the institutional researchers are also community members). Additionally, applicants are required to provide "Measures of Effectiveness" that will demonstrate the accomplishment of the various identified objectives of the grant. Measures must be objective/quantitative and must measure the intended outcome. These Measures of Effectiveness (1) shall be submitted with the application and shall be an element of evaluation, and (2) shall be a data requirement to be submitted with or incorporated into the periodic progress reports. As part of this program, applicants must generate, on at least an annual basis, reports for community members that describe progress, community input and involvement, research project implementation, and relevant findings. Such reports must use plain language and accessible formats (e.g., print, Web, and readable from the Web by assistive technology, as specified by section 508 of the Workforce Rehabilitation Act), so as to be easily comprehended and critiqued by community members. Applicants must budget for production and broad dissemination of such reports.

2. Programmatic Interests

Prevention research can be divided into phases that extend from (a) basic and descriptive research, to (b) intervention development and testing for efficacy and effectiveness, through (c) research on dissemination, translation to other populations or health issues, and implementation of interventions found to be effective, to (d) research on development and maintenance of supportive policies and environments, to (e) research to develop and validate surveillance and evaluation methods and other mechanisms to monitor the health of the public and the quality and impact of public health programs, services, or other interventions. The main foci of this announcement are items (c), (d), and (e).

Applicants should use the Guide to Community Preventive Services¹ as documentation of the need to test effectiveness of a specific population-based public health intervention. Applicants should also consult guidelines on participatory research, such as those provided at <http://www.ihpr.ubc.ca/guidelines.html>, and

¹ Task Force on Community Preventive Services. Introducing the Guide to Community Preventive Services: Methods, first recommendations, and expert commentary. *American Journal of Preventive Medicine* 2001;18(1S).

the campus-community partnership principles at <http://futurehealth.ucsf.edu/ccph/principles.html#principles>.

Multi-disciplinary, multi-level, participatory research into prevention approaches that address complex health issues common to communities and population groups might include (but are not limited to) descriptive, methodological, experimental, or quasi-experimental studies such as:

a. Research on how to enhance working relationships between researchers and community organizations (representing practitioners, policy makers, or diverse lay public groups with public health concerns), to promote appropriate, tailored, and effective public health practice and/or the development or enforcement of sound public health law or policy. For example, a descriptive retrospective case study might examine the factors that appear to account for the successful or unsuccessful efforts of one or more communities in forming coalitions to bring about changes in local ordinances related to providing healthful food choices in cafeterias and vending machines in public schools. A quasi-experimental study might compare multiple community coalitions prospectively as they undertake such efforts with or without state or federal support. A methodological study might aim to identify and validate objective indicators of successful and unsuccessful community coalitions for use in survey instruments, surveillance, or evaluation.

b. Research on combining previously tested elements to produce multi-component, multi-level interventions that can improve health outcomes more efficiently; address social, environmental, and economic determinants of health; and/or reach more diverse populations.

c. Research on disseminating, translating (adapting), and applying effective, locally appropriate, and affordable interventions within or across communities defined by geography, interests, profession, race, ethnicity, gender, sexual orientation, or other health condition.

d. Research on developing new methods for enhancing surveillance, needs assessments, setting of priorities, program delivery, monitoring, evaluation, dissemination of information, translation of research, and/or distance learning including new uses of information technology.

e. Research on how to increase productive participation of practitioners, policy makers, citizens and/or lay leaders in defining the

research questions, conducting and analyzing the research, and interpreting and applying the research findings.

f. Research on how to build the capacity of organizations to mobilize community resources to achieve disease and disability prevention and health promotion.

g. Research on how to strengthen public health systems and services, public health infrastructure, and the community's readiness to respond effectively to threats or occurrences of disaster.

h. Research on institutionalizing or sustaining programs and/or collaborative relationships beyond their demonstration funding.

E. Content

1. Letter of Intent (LOI)

A non-binding LOI is requested for this program. The narrative should be no more than one, double-spaced page, printed on one side, with one inch margins, and un-reduced font. It should identify the announcement number, name of the proposed project director, name of the organization, descriptive title of the proposed research, and a brief description of the proposed project. Your letter of intent will be used to allow CDC to determine the level of interest in the announcement and to plan the review more efficiently.

2. Applications

Use the information in the Program Requirements, Other Requirements, and Evaluation Criteria sections of this announcement to develop the application content. Your application will be evaluated on the criteria listed, so it is important to follow them in laying out your program plan. The narrative should be no more than 25 double-spaced pages, printed on one side, with one inch margins, and un-reduced font.

The grant applications should include:

a. Justification of the research needs and explanation of the scientific basis for the research, the expected outcome, and the relevance of the findings to preventing disease, injury, and disability, and promoting health.

b. Specific, measurable, and explicitly scheduled objectives.

c. A detailed plan describing the methods by which the objectives will be achieved, including their sequence. A comprehensive evaluation plan is an essential component of the application.

d. A description of the roles and responsibilities of the principal investigator and all co-investigators.

e. A description of all project staff and their roles in the proposed research,

regardless of their funding source. The description should include their titles, qualifications, experience, and responsibilities in the proposed research; percentage of time each will devote to the research; and the portion of their salaries to be paid by the grant.

f. A description of any activities related to, but not supported by, the grant.

g. A description of how the specified community groups, organizations, and other entities will be involved in the proposed research. The description should include a clear statement of their roles. Letters of support from each group, organization, and entity should be included in the Appendices.

h. A detailed first year's budget for the grant with projections for two additional years, if applicable.

The original application must include specific salary and fringe benefit amounts for individuals; however, applicant organizations have the option of omitting specific salary and fringe benefit amounts for individuals from the copies of the application that are made available to outside reviewing groups. To exercise this option: On the original and five copies of the application, the applicant must use asterisks to indicate those individuals for whom salaries and fringe benefits are not shown, but the subtotals must still be shown.

F. Submission and Deadline

Letter of Intent (LOI)

On or before March 20, 2002, submit the requested LOI to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

Application

Submit the original and five copies of PHS-398 (OMB Number 0925-0001) (adhere to the instructions on the Errata Instruction Sheet for PHS 398). Forms are available in the application kit and at the following Internet address: www.cdc.gov/od/pgo/forminfo.htm.

In addition to sending the original and five copies of the proposal, please also enclose a copy of the proposal on a 3.5 diskette in WordPerfect, Word, or ASCII format. If you have access to an electronic version of PHS-398 (OMB Number 0925-0001), please include electronic forms on the diskette. If you do not have access or capability to use an electronic version, please ensure that the following items in narrative format are included on your diskette: Abstract, Biographical Sketches, Research Plan (items A-I as required in PHS-398), and Other Support Pages. Label the diskette

with your name, operating system, software, and proposal title (example: John Doe, DOS, WordPerfect 6, Engaging the Community in Securing Emergency Preparedness). If the title is too long, please truncate.

On or before April 30, 2002, submit the application to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

Deadline: Applications shall be considered as meeting the deadline if they are either:

1. Received on or before the deadline date; or

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

Late: Applications which do not meet the criteria in 1. or 2. above will be returned to the applicant.

G. Evaluation Criteria

Application

Upon receipt, applications will be reviewed by CDC staff to assure that they are complete and comply with the section on Eligible Applicants. Incomplete applications and applications that are not in compliance will be returned to the applicant without further consideration. Applications that are complete and in compliance will be further evaluated by a dual peer review process.

The First Stage of the Peer Review Process

In the first stage of this process, applications will be evaluated by a Special Emphasis Panel (SEP) of researchers external to CDC who are known for their expertise in prevention research and participatory research.

Each application will be subjected initially to a streamlined review by the SEP to determine if the application is of sufficient technical and scientific merit to warrant further review. Applications judged to be noncompetitive will be withdrawn from further consideration and CDC will promptly notify the principal investigator/program director and the official signing for the applicant organization.

Competitive applications will undergo full review by the SEP and will be scored against the following criteria:

1. **Significance**—Does this study address an important problem related to

the research goals outlined in the Purpose and Programmatic Interests sections of this document? If the aims of the application are achieved, how would scientific knowledge be advanced? What would be the effect of this study on the concepts and methods that drive this field?

2. *Approach*—Are the conceptual framework, design (including composition of study population), methods, and analyses adequately developed, well-integrated, and appropriate to the aims of the project? Does the applicant acknowledge potential problem areas and consider alternative tactics?

3. *Innovation*—Does the project employ novel concepts, approaches, or methods? Are the aims original and innovative? Does the project challenge existing paradigms or develop new methodologies that can serve as models for future research?

4. *Investigator*—Is the investigator appropriately trained and well suited to carry out this work? Is the work proposed appropriate to the experience level of the principal investigator and other researchers, if any?

5. *Environment*—Does the scientific environment in which the work will be done contribute to the probability of success? Do the proposed experiments take advantage of unique features of the scientific environment or employ useful collaborative arrangements? Is there documentation of cooperation from necessary participants in the project, where applicable? Is there evidence of institutional support and availability of resources necessary to perform the project?

6. *Human Subjects*—If human subjects are involved, does the applicant adequately address the requirements of 45 CFR part 46 for the protection of human subjects? (Not scored; however, an application can be disapproved if the research risks are sufficiently serious and protection against risks is so inadequate as to make the entire application unacceptable.)

7. The degree to which the applicant has met the CDC Policy requirements regarding the inclusion of women, ethnic, and racial groups in the proposed research. This includes:

a. The proposed plan for the inclusion of both sexes and racial and ethnic minority populations for appropriate representation.

b. The proposed justification when representation is limited or absent.

c. A statement as to whether the design of the study to measure differences when warranted.

d. A statement as to whether the plans for recruitment and outreach for study

participants include the process of establishing partnerships with community(ies) and recognition of mutual benefits.

8. In addition to the above criteria, all applications will be reviewed with respect to the following:

a. Extent of community sanction/liaison. Rationale for selection of the targeted community and documentation of health needs and risk factors. Evidence of access to, interaction with, and participation of the community in development and conduct of the project. Establishment of collaborative interactions among all project participants. Extent to which the design demonstrates sensitivity to cultural and socioeconomic factors in the community where the public health program or problem resides.

b. Demonstration of effective communication channels between researchers and the community.

c. Plans for useful and practical dissemination of project activities and findings within the affected program(s). Active involvement of at least one community partner is a minimal requirement for responsiveness to this program announcement.

d. Appropriateness of the proposed budget, including that of the community partner(s), and project duration in relation to the project's objectives.

e. Attempt to reduce health disparities by targeting various socioeconomic, racial, and ethnic groups.

The Second Stage of the Peer Review Process A second programmatic review will be conducted by a chartered committee or a panel of senior federal officials. Awards will be made based on the priority score ranking determined by the peer review panel and the availability of funds.

H. Other Requirements

Technical Reporting Requirements

Provide CDC with original plus two copies of

1. Annual progress reports. These reports should be a maximum of five pages in length and should include a discussion, in plain language, of any changes made to the research plan from the funded proposal, progress to date, community input and involvement, project implementation, and relevant findings.

2. Annual "Measures of Effectiveness" reports for CDC. Annual reports that describe and evaluate progress toward objective/quantitative measures of effectiveness that demonstrate the accomplishment of the various identified objectives of the grant. These reports should be

submitted to CDC with the annual progress reports.

3. Annual (or more frequent) reports for community members that describe progress, community input and involvement, project implementation, and relevant findings. Such reports must be in plain language and accessible formats, so as to be easily comprehended and critiqued by community members. These reports should be submitted to CDC with the annual progress reports.

4. Financial status report, no more than 90 days after the end of each budget period; and

5. Final financial and performance reports, no more than 90 days after the end of the project period.

Send all reports to the Grants Management Specialist identified in the "Where to Obtain Additional Information" section of this announcement.

The following additional requirements are applicable to this program. For a complete description of each, see Attachment I of the announcement.

AR-1 Human Subjects Requirements
AR-2 Requirements for Inclusion of Women and Racial and Ethnic Minorities in Research
AR-4 HIV/AIDS Confidentiality Provisions
AR-5 HIV Program Review Panel Requirements
AR-7 Executive Order 12372 Review
AR-8 Public Health System Reporting Requirements
AR-10 Smoke-Free Workplace Requirements
AR-11 Healthy People 2010
AR-12 Lobbying Restrictions
AR-15 Proof of Non-Profit Status
AR-22 Research Integrity

I. Authority and Catalog of Federal Domestic Assistance Number

This program is authorized under section 301 of the Public Health Service Act, [42 U.S.C. 241], as amended. The Catalog of Federal Domestic Assistance number is 93.283.

J. Where To Obtain Additional Information

This and other CDC announcements can be found on the CDC home page Internet address—<http://www.cdc.gov>. Click on "Funding" then "Grants and Cooperative Agreements."

To receive additional written information and to request an application kit, call 770-488-2740. You will be asked to leave your name and address and will be instructed to identify the Program Announcement number of interest.

If you have questions after reviewing the contents of all the documents, business management technical assistance may be obtained from:

Juanita Crowder, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention, 2920 Brandywine Road, Room 3000, Atlanta, GA 30341, Telephone number 770-488-2734, E-mail address: jcrowder@cdc.gov.

For program technical assistance, contact: Cheryl A. Coble, Program Analyst, Office of Extramural Prevention Research, Public Health Practice Program Office, Centers for Disease Control and Prevention, 4770 Buford Highway, MS K-56, Atlanta, GA 30341, Telephone number 770-488-8027, E-mail address: ccoble@cdc.gov.

Dated: February 14, 2002.

Rebecca B. O'Kelley,
Chief, International Grants and Contracts Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[Program Notice No. ACF/ACYF/RHYP 2002-02]

Notice of Availability of Financial Assistance and Request for Applications for the Runaway and Homeless Youth Programs

AGENCY: Family and Youth Services Bureau, Administration on Children, Youth and Families, ACF, HHS.

ACTION: This Notice announces the availability of financial assistance and request for applications for the FY 2002 Basic Center Program for Runaway and Homeless Youth (BCP), FY 2002 and 2003 Transitional Living Program (TLP) and FY 2002 Training and Technical Assistance (T&TA) Cooperative Agreements.

This Notice announces the availability of the full official Program Announcement for Fiscal Year 2002 Basic Center Program for Runaway and Homeless Youth (BCP), FY 2002 and

2003 Transitional Living Program (TLP) and FY 2002 Training and Technical (T&TA) Assistance Cooperative Agreements. The full official announcement must be used to apply for grant funding under the competitive grant areas and is available by calling or writing the ACYF Operations Center (address below) or by downloading the announcement from the FYSB website at <http://www.acf.dhhs.gov/programs/fysb>.

Legislative Authority: The Runaway and Homeless Youth Act (RHY Act) as amended by PL 106-71 authorizes grants for Runaway and Homeless Youth programs.

Deadlines: The deadline for RECEIPT of applications for a new grant under this announcement is:

CFDA#	Programs	Deadline dates	Deadline times
93.623	Basic Center Program	May 3, 2002	4:30 p.m. (EDT)
93.623	Training and Technical Assistance Cooperative Agreements	May 3, 2002	4:30 p.m. (EDT)
93.550	Transitional Living Program (Fiscal Year 2002 Funding)	May 10, 2002	4:30 p.m. (EDT)
93.550	Transitional Living Program (Fiscal Year 2003 Funding)	May 10, 2002	4:30 p.m. (EDT)

Mailing and Delivery Instructions: Applications must be in hard copy. Mailed applications and applications hand delivered (by applicants, applicant couriers, overnight/express mail couriers or any other method of hand delivery) shall be considered as meeting an announced deadline if they are received on or before the deadline, at the following address: ACYF Operations Center, 1815 North Fort Myer Drive, Suite 300, Arlington, VA 22209, Telephone: 1-800-351-2293, Email: FYSB@lcnnet.com.

Applications may be hand delivered to the above address between the hours of 8 a.m. and 4:30 p.m. (EDT), Monday through Friday (excluding Federal Holidays).

Applicants are responsible for mailing and delivering applications well in advance of deadlines to ensure that the applications are received on time. Applications received after 4:30 p.m. (EDT) on the deadline date will be classified as late. Postmarks and other

similar documents do not establish receipt of an application.

ACF will not accept applications delivered by fax or e-mail regardless of date or time of submission and receipt.

Late Applications: Applications which do not meet the criteria stated above and are not received by the deadline date and time are considered late applications. The Administration for Children and Families (ACF) will notify each late applicant that its application will not be considered in the current competition.

Extension of Deadline. ACF may extend an application deadline for applicants affected by acts of God such as floods and hurricanes, or when there is widespread disruption of the mail service, or for other disruptions of services, such as a prolonged blackout, that affect the public at large. A determination to waive or extend deadline requirements rests with the Chief Grants Management Officer.

SUPPLEMENTARY INFORMATION: Grant awards for FY 2002 funds will be made by September 30, 2002 for the Basic Center Program and Training and Technical Assistance Cooperative Agreement and Transitional Living Program. Transitional Living Program Fiscal Year 2003 grant awards will be made after September 30, 2002.

The estimated funds available for new starts and the approximate number of new grants that may be awarded under this program announcement are as follows:

Competitive grant area	New start funds available	Estimated number of new grants
A. BCP	\$9,700,000	100
*B. TLP	19,000,000 (FY 2002)	100
TLP	11,200,000 (FY 2003)	60
