Postponement of Due Date for Preliminary Determinations

On October 18, 2001, the Department initiated antidumping duty investigations of imports of certain cold-rolled carbon steel flat products from Argentina, Australia, Belgium, Brazil, China, France, Germany, India, Japan, Korea, the Netherlands, New Zealand, Russia, South Africa, Spain, Sweden, Taiwan, Thailand, Turkey and Venezuela. The notice of initiation stated that we would issue our preliminary determinations no later than 140 days after the date of initiation. See 66 FR 54198 (October 26, 2001). Currently, the preliminary determinations in these investigations are due on March 7, 2002.

On January 14, 2002, petitioners alleged, pursuant to section 733(e)(1) of the Act and 19 CFR 351.206, that critical circumstances exist with respect to imports of certain cold-rolled carbon steel flat products from Argentina, Australia, China, India, the Netherlands, Russia, South Africa, South Korea and Taiwan.

On February 7, 2002, petitioners made a timely request pursuant to 19 CFR 351.205(e) for a 50-day postponement, pursuant to section 733(c)(1)(A) of the Act. Petitioners stated that a postponement of the preliminary determinations is necessary in order to permit a more complete and effective investigation and review of respondents' questionnaire and supplemental questionnaire responses, and accurate preliminary determinations.

Under section 733(c)(1)(A) of the Act, if the petitioner makes a timely request for an extension of the period within which the preliminary determination must be made under subsection (b)(1), then the Department may postpone making the preliminary determination under subsection (b)(1) until not later than the 190th day after the date on which the administering authority initiated the investigation. Therefore, in accordance with petitioners' request for a postponement, the Department is postponing the preliminary determinations in these investigations until April 26, 2002, which is 190 days from the date on which the Department initiated these investigations.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f).

Scope of the Investigation

For purposes of this investigation, the term "stainless steel bar" includes articles of stainless steel in straight lengths that have been either hot-rolled, forged, turned, cold-drawn, cold-rolled or otherwise cold-finished, or ground, having a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles, hexagons, octagons, or other convex polygons.
