BILLING CODE 4510-30-C

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (02-028)]

Notice of Prospective Patent License

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of prospective patent license.

SUMMARY: NASA hereby gives notice that Makel Engineering, Inc., of Chico, California, has applied for an exclusive license to practice the inventions disclosed in U.S. Patent No. 5,520,753 entitled "PdTi Metal Alloy as Hydrogen or Hydrocarbon Sensitive Metal," (NASA Case No. 15,956-1); and U.S. Patent No. 5,668,301 entitled "Method and Apparatus for the Detection of Hydrogen Using a Metal Alloy," (NASA Case No. LEW 15,956-2), both of which are assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration.

Written objections to the prospective grant of a license should be sent to NASA Glenn Research Center.

DATES: Responses to this notice must be received by March 14, 2002.

FOR FURTHER INFORMATION CONTACT: Kent N. Stone, Patent Attorney, NASA Glenn Research Center, Mail Stop 500-118, 21000 Brookpark Road, Cleveland, Ohio 44135.

Dated: February 20, 2002.

Robert M. Stephens,

Deputy General Counsel.

BILLING CODE 7510-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-285]

Omaha Public Power District Fort Calhoun Station, Unit 1, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from certain requirements of Appendix G to part 50 of Title 10 of the Code of Federal Regulations (10 CFR part 50) for Facility Operating License No. DPR-40, issued to the Omaha Public Power District (the licensee), for operation of the Fort Calhoun Station, Unit 1 (FCS), located in Washington County, Nebraska.

Environmental Assessment

Identification of the Proposed Action

The proposed action would exempt the licensee from certain requirements of Appendix G to 10 CFR part 50 to allow the application of the methodology approved for determining the pressure-temperature (P-T) limit curves in the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), Section XI, Code Case N-640 entitled, "Alternate Reference Fracture Toughness for Development of P-T Curves for ASME Section XI, Division I."

The proposed action is in accordance with the licensee's application for an exemption dated December 14, 2001.

The Need for the Proposed Action

The licensee wants to revise the currently approved methodology for P-T limit calculations to incorporate the methodology approved for use in Code Case N-640. Code Case N-640 allows the use of the K_{IC} fracture toughness curve instead of the K_{IA} fracture toughness curve, as required by Appendix G to Section XI, for determining P-T limits for reactor pressure vessel (RPV) materials. The exemption is needed because the methodology in Code Case N-640 is less conservative in determining P-T limits than the approved methodology in Appendix G of Section XI. The proposed action also supports the licensee's application for a license amendment dated December 14, 2001, to revise the P-T limits in the technical specifications to reflect an operating period of 40 effective full power years (EFPY).

In the associated exemption, the staff has determined that, pursuant to 10 CFR 50.12(a)(2)(ii), the underlying purpose of the regulation will continue to be served by the implementation of the code case.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes as set forth below, that there are no significant environmental impacts associated with the use of the alternative analysis methods to support the revision of the RPV P-T limit curves.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation

exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not involve any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the FCS dated August 1972.

Agencies and Persons Consulted

In accordance with its stated policy, on February 12, 2002, the staff consulted with the Nebraska State official, Julia Schmitt of the Nebraska Consumer Health Services Agency, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated December 14, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web

site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 21st day of February 2002.

For the Nuclear Regulatory Commission.

Stephen Dembek,

*Project Directorate IV, Chief, Section 2,
Division of Licensing Project Management,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

**OFFICE OF PERSONNEL
MANAGEMENT**

**Proposed Collection; Comment
Request for Review of an Expiring
Information Collection: RI 34-1 and RI
34-3**

AGENCY: Office of Personnel
Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of an expiring information collection. RI 34-1, Financial Resources Questionnaire, collects detailed financial information for use by OPM to determine whether to agree to a waiver, compromise, or adjustment of the collection of erroneous payments from the Civil Service Retirement and Disability Fund. RI 34-3, Notice of Amount Due Because of Annuity Overpayment, informs the annuitant about the overpayment and collects information.

Approximately 520 RI 34-1 and 1,561 RI 34-3 forms are completed annually. Each form takes approximately 60 minutes to complete. The annual estimated burden is 520 hours and 1,561 hours respectively.

Comments are particularly invited on:
—Whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility;
—Whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and
—Ways in which we can minimize the burden of the collection of

information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

For copies of this proposal, please contact Mary Beth Smith-Toomey at (202) 606-8358, FAX (202) 418-3251 or via E-mail at mbtoomey@opm.gov. Please include a mailing address with your request.

DATES: Comments on this proposal should be received within 60 calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to—Ronald W. Melton, Chief, Operations Support Division, Retirement and Insurance Service, U.S. Office of Personnel Management, 1900 E Street, NW, Room 3349A, Washington, DC 20415.

FOR INFORMATION REGARDING

ADMINISTRATIVE COORDINATION—CONTACT: Donna G. Lease, Team Leader, Desktop Publishing and Printing Team, Budget and Administrative Services Division, (202) 606-0623.

U.S. Office of Personnel Management.

Kay Coles James,

Director.

**OFFICE OF PERSONNEL
MANAGEMENT**

[RI 78-11]

**Proposed Collection; Comment
Request for Review of a Revised
Information Collection**

AGENCY: Office of Personnel
Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of a revised information collection. RI 78-11, Medicare Part B Certification, collects information from annuitants, their spouses, and survivor annuitants to determine their eligibility under the Retired Federal Employees Health Benefits Program for a Government contribution toward the cost of Part B Medicare.

Approximately 100 RI 78-11 forms are completed annually. Each form requires approximately 10 minutes to complete for an annual estimated burden of 17 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, Fax 202-418-3251, or via e-mail at mbtoomey@opm.gov. Please include a mailing address with your request.

DATES: Comments on this proposal should be received within 60 calendar days from the date of this publication.

BILLING CODE 6325-50-P

**OFFICE OF PERSONNEL
MANAGEMENT**

**Submission for OMB Review;
Comment Request for a Revised
Information Collection: SF 3106 and SF
3106A**

AGENCY: Office of Personnel
Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for a revised information collection. SF 3106, Application for Refund of Retirement Deductions/Federal Employees Retirement System (FERS), is used by former Federal employees under FERS, to apply for a refund of retirement deductions withheld during Federal employment, plus any interest provided by law. SF 3106A, Current/Former Spouse's Notification of Application for Refund of Retirement Deductions Under FERS, is used by refund applicants to notify their current/former spouse(s) that they are applying for a refund of retirement deductions, which is required by law.

Approximately 17,000 SF 3106, Application for Refund of Retirement Deductions, will be processed annually. The SF 3106 takes approximately 30 minutes to complete for a total of 8,500 hours annually. Approximately 13,600
