Notice of Availability of a Draft Environmental Impact Statement on the Potomac Consolidated Terminal Radar Approach Control (TRACON) Airspace Redesign

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability of a draft environmental impact statement.

SUMMARY: The Federal Aviation Administration (FAA) has released a Draft Environmental Impact Statement (DEIS) for redesign of the airspace in the Baltimore-Washington Area. The proposed action is to redesign the airspace in the Baltimore-Washington metropolitan area excluding noise abatement procedures. This involves developing new routes, altitudes and procedures to take advantage of the new Potomac Consolidated TRACON, improved aircraft performance, and emerging air traffic control technologies. The proposed action is not dependent on development at any of the airports in the study area.

The airspace redesign study encompasses the area within a 75-nautical mile radius centered on a radio navigational aid in Georgetown, within the District of Columbia. The study area comprises portions of five states—Delaware, Maryland, Pennsylvania, Virginia and West Virginia—and the entire District.
