SUPPLEMENTARY INFORMATION:

Title: Animal Welfare.

OMB Number: 0579-0115.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal Welfare Act standards and regulations have been promulgated to promote and ensure the humane care and treatment of regulated animals. The regulations in 9 CFR part 3, subpart E, address specifications for the humane handling, care, treatment, and transportation of marine mammals. These specifications require facilities to keep certain records and provide certain information that are needed to enforce the Animal Welfare Act and the regulations.

The regulations (9 CFR part 3, subpart E) require facilities to complete many information collection activities, such as written protocols for cleaning, contingency plans, daily records of animal feeding, water quality records, documentation of facility-based employee training, plans for any animals kept in isolation, medical records, a description of the interactive program, and health certificates. These information collection activities do not mandate the use of any official government form and are necessary to enforce regulations intended to ensure the humane care and treatment of marine mammals.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our

information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5952 hours per response.

Respondents: Employees or attendants of USDA licensed/registered marine mammal facilities.

Estimated annual number of respondents: 3,170.

Estimated annual number of responses per respondent: 8.6208.

Estimated annual number of responses: 27,328.

Estimated total annual burden on respondents: 16,265 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 22nd day of February 2002.
