Revisions to the California State Implementation Plan, El Dorado Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve a revision to the El Dorado County Air Pollution Control District's (EDCAPCD) portion of the California State Implementation Plan (SIP). The action consists of incorporating a revised version of Rule 523, New Source Review, into the SIP. The intended effect of approving Rule 523 is to regulate air pollution in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). Rule 523 consists of definitions of all terms relating to new sources and modifications to existing sources of air pollution, source

permitting requirements, including applicability, major source definitions, offsets, increment analysis, and Lowest Achievable Emission Rate (LAER)/Best Available Control Technology (BACT). EPA is finalizing the approval of Rule 523 into the California SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

DATES: This rule is effective on April 30, 2002 without further notice, unless EPA receives adverse comments by April 1, 2002. If we receive such comment, we will publish a timely withdrawal in the **Federal Register** to notify the public that this rule will not take effect.

I. The State's Submittal

A. What Rule Did the State Submit?

Table 1 lists the rule we are approving with the date that it was adopted by EDCAPCD and submitted by the California Air Resources Board (CARB).

TABLE 1.—SUBMITTED RULE

Local Agency	Rule #	Rule title	Adopted	Submitted
EDCAPCD	523	New Source Review	11/20/01	12/18/01

On January 4, 2002, this rule submittal was found to meet the completeness criteria in 40 CFR part 51, appendix V, which must be met before formal EPA review.

B. Are There Other Versions of This Rule?

We finalized a limited approval and limited disapproval of Rule 523 on February 2, 2000 (65 FR 4887). The limited approval portion of that rulemaking incorporated Rule 523 into the federally enforceable SIP and the limited disapproval portion of triggered sanctions and FIP clocks under sections 179(a) and 110(c) of the CAA. The EDCAPCD adopted a revision to the SIP-approved version and CARB submitted it to us on May 23, 2001. This revision was submitted to correct the deficiencies noted in EPA's February 2, 2000 rulemaking. Rule 523 was subsequently revised and submitted again on the dates indicated in Table 1 above. While we can act on only the

most recently submitted version of the rule, we have reviewed materials provided with the May 23, 2001 submittal.

C. What is the Purpose of the Submitted Rule Revision?

The rule revision contains new or revised provisions on offsets and interprecursor trading that correct the four rule deficiencies noted in our February 2, 2000 rulemaking. A detailed discussion of the rule deficiencies and the EDCAPCD rule revisions that corrected them is included in the Technical Support Document (TSD) for this rulemaking.

II. EPA's Evaluation and Action

A. How is EPA Evaluating the Rule?

Generally, SIP rules must be enforceable (see section 110(a) of the Act) and must not relax existing requirements (see sections 110(l) and 193).

Guidance and policy documents that we used to define specific requirements include the following:

The air quality planning requirements for nonattainment new source review (NSR) are set out in part D of title I of the Clean Air Act. EPA has issued a "General Preamble" describing EPA's preliminary views on how EPA intends to review SIPs and SIP revisions submitted under part D, including those State submittals containing nonattainment NSR SIP requirements (see 57 FR 13498 (April 16, 1992) and 57 FR 18070 (April 28, 1992)).

B. Does the Rule Meet the Evaluation Criteria?

We believe this rule is consistent with the relevant policy and guidance regarding enforceability, SIP relaxations, and nonattainment NSR requirements.
