Attachment A—Cellular Phone Safe Driving Tips

Safe driving is your first priority. Always buckle up, keep your hands on the wheel and your eyes on the road.

Make sure that your phone is positioned where it is easy to see and easy to reach. Be familiar with the operation of your phone, so that you're comfortable using it on the road.

Use a hands-free microphone while driving. Make sure your phone is dealer-installed to get the best possible sound quality.

Use the speed dialing feature to program in frequently called numbers. Then you can make a call by touching only two or three buttons. Most phones will store up to 99 numbers.

When dialing manually without the speed dialing feature, dial only when stopped. If you can't stop, or pull over, dial a few digits, then survey traffic before completing the call. (Better yet, have a passenger dial.)

Never take notes while driving. Pull off the road to jot something down; if it's a phone number, many mobile phones have an electronic scratchpad that allows you to key in a new number while having a conversation.

Let your wireless network's voice mail pick up your calls when it's inconvenient or unsafe to answer the car phone. You can even use your voice mail to leave yourself reminders.

Be a cellular Samaritan. Dialing 9-1-1 is a free call for cellular subscribers; use it to report crimes in progress or other potential life-threatening emergencies, accidents or drunk driving.

On June 8, 2001, HHS Secretary Thompson announced a Department-wide initiative to reduce regulatory burdens in health care, to improve patient care, and to respond to the concerns of health care providers and industry, State and local Governments, and individual Americans who are affected by HHS rules. Common sense approaches and careful balancing of needs can help improve patient care. As part of this initiative, the Department is establishing the Secretary's Advisory Committee on Regulatory Reform to provide findings and recommendations regarding potential regulatory changes. These changes would enable HHS programs to reduce burdens and costs associated with departmental regulations and paperwork, while at the same time maintaining or enhancing the effectiveness, efficiency, impact, and access of HHS programs.

Dated: February 25, 2002.

William Raub,

Deputy Assistant Secretary for Planning and Evaluation.
