SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *Public Notice* in IB Docket No. 95-59, DA 02-248 (released February 1, 2002). In October 2001, the Bureau released a notice public¹ asking parties to refresh the record regarding petitions for reconsideration of the 1996 Antenna Order (11 FCC Rcd 5809).² The Bureau noted that, since the release of the 1996 Antenna Order, many of the issues raised in the petitions for reconsideration may have become moot or irrelevant in light of intervening events, including Commission amendment of 1.4000,³ that applies to antennas used to transmit as well as receive both video and nonvideo services.⁴

For these reasons, the Bureau requested that parties that had petitions for reconsideration for the 1996 Antenna Order file a supplemental notice indicating the issues in such petitions, if any, they still wished to have reconsidered. The Bureau stated that, to the extent that parties did not indicate an intent to pursue their respective petitions for reconsideration, the Commission would deem such

petitions withdrawn and would dismiss such petitions.⁵ The public notice was published in the *Federal Register*, 66 FR 53417, October 22, 2001. No party filed in response to this public notice.

Procedural Matters: Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, and 1.419, interested parties may file Supplemental Commissions, limited to the issues addressed in this Public Notice, no later than April 8, 2002. Supplemental Reply Comments must be filed no later than April 17, 2002. In view of the tendency of this proceeding, we except to adhere to the schedule set forth in this *Public Notice* and do not contemplate granting extension of time. Comments should reference IB Docket No. 95-59 and should include the FCC number shown on this *Public Notice*. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS), 63 FR 24121 (May 1, 1998). Comments filed through the ECFS can be sent as an electronic file via Internet to <http://www.fcc.gov/e-file/ecfs.html>. In completing the transmittal screen, parties responding should include their full name, mailing address, and the applicable docket number, IB Docket 95-59. Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking appear in the caption of the proceeding, commenters must submit two additional copies for each additional docket or rulemaking number. All filing must be sent to the Commission's Acting Secretary, William F. Caton, Office of the Secretary, Federal Communications Commission, 445 12th St., SW., Rm. TW-A325, Washington, DC 20554. One copy of all comments should also be sent to the Commission's copy contractor, Qualex International, Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554. Copies of all filings are available for public inspection and copying during regular business hours at the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC 20554.

GENERAL SERVICES ADMINISTRATION

Interagency Committee for Medical Records (ICMR) Automation of Medical Standard Form 503

AGENCY: General Services Administration.

ACTION: Guideline on automating medical standard forms.

Background

The Interagency Committee on Medical Records (ICMR) is aware of numerous activities using computer-generated medical forms, many of which are not mirror-like images of the genuine paper Standard/Optional Form. With GSA's approval the ICMR eliminated the requirement that every electronic version of a medical Standard/Optional form be reviewed and granted an exception. The committee proposes to set required fields standards and that activities developing computer-generated versions adhere to the required fields but not necessarily to the image. The ICMR plans to review medical Standard/Optional forms which are commonly used and/or commonly computer-generated. We will identify those fields which are required, those (if any) which are optional, and the required format (if necessary). Activities may not add or delete data elements that would change the meaning of the form. This would require written approval from the ICMR. Using the process by which overprints
