BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 011218304-1304-01; I.D. 030102B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area

630 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the B season allowance of the pollock total allowable catch (TAC) for Statistical Area 630.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), March 11, 2002 until 1200 hrs, A.l.t., August 25, 2002.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

Within any fishing year, underage or overage of a seasonal allowance may be added to or subtracted from subsequent seasonal allowances in a manner to be determined by the Administrator, Alaska Region, NMFS (Regional Administrator), provided that the sum of the revised seasonal allowances does not exceed 30 percent of the annual TAC apportionment for the Central and Western Regulatory Areas in the GOA (§ 679.20 (a)(5)(ii)(C)). For 2002, 30 percent of the annual TAC for the Central and Western Regulatory Areas is 15,187 mt. For 2002, the Regional Administrator has determined that within each area for which a seasonal allowance is established, any underage or overage of harvest at the beginning of the next season(s) shall be subtracted from or added to the following season provided that the resulting sum of seasonal allowances in the Central and Western Regulatory Areas does not exceed 15,187 mt in any single season. The B season allowance of the pollock TAC in Statistical Area 630 is 1,122 metric tons (mt) as established by an emergency rule implementing 2002 harvest specifications and associated management measures for the groundfish fisheries off Alaska (67 FR 956, January 8, 2002). The Regional Administrator hereby increases the B season pollock TAC by 381 mt. This amount is the A season pollock under harvest in Statistical Area 630 and provides for an aggregate B season allowance in the Central and Western Regulatory Areas that does not exceed

15,187 mt. In accordance with § 679.20 (a)(5)(ii)(C), the B season allowance of pollock TAC in Statistical Area 630 is 1,503 mt.

In accordance with § 679.20 (d)(1)(i), the Regional Administrator has determined that the B season allowance of the pollock TAC in Statistical Area 630 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 1,203 mt, and is setting aside the remaining 300 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20 (d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 630.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the amount of the 2002 A season pollock TAC specified for Statistical Area 630 of the GOA constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553 (b)(3)(B) and 50 CFR 679.20 (b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely fashion to prevent exceeding the 2002 B season pollock TAC specified for Statistical Area 630 of the GOA constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 5, 2002.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
