

possessed or controlled by a person subject to this order, or service any item, of whatever origin, that is owned, possessed or controlled by a person subject to this order if such service involves the use of any item subject to the EAR that has been or will be exported from the United States. For purposes of this paragraph, servicing means installation, maintenance, repair, modification or testing.

Third, that, in addition to the related persons named above, after notice and opportunity for comment as provided in section 766.23 of the EAR, any other person, firm, corporation, or business organization related to the denied person by affiliation, ownership, control, or position of responsibility in the conduct of trade or related services may also be made subject to the provisions of this order.

Fourth, that this order does not prohibit any export, reexport, or other transaction subject to the EAR where the only items involved that are subject to the EAR are the foreign-produced direct product of U.S.-origin technology.

In accordance with the provisions of Section 766.24(e) of the Regulations, Infocom, Tetrabal, or Ihsan Elashi may, at any time, appeal this Order by filing a full written statement in support of the appeal with the Office of the Administrative Law Judge, U.S. Coast Guard ALJ Docketing Center, 40 South Gay Street, Baltimore, Maryland 21202-4022. A related person may appeal to the Administrative Law Judge at the aforesaid address in accordance with the provisions of Section 766.23(c) of the Regulations.

This Order is effective on March 4, 2002 and shall remain in effect for 180 days.

In accordance with the provisions of Section 766.24(d) of the Regulations, BXA may seek renewal of this Order by filing a written request not later than 20 days before the expiration date. Infocom, Tetrabal, or Ihsan Elashi may oppose a request to renew this Order by filing a written submission with the Assistant Secretary for Export Enforcement, which must be received not later than seven days before the expiration date of the Order.

A copy of this Order shall be served on Infocom, Tetrabal, and Ihsan Elashi and each related person and shall be published in the **Federal Register**.

Entered this 4th day of March, 2002.

Lisa A. Prager,

Acting Assistant Secretary for Export Enforcement.

Creatine Monohydrate From the People's Republic of China; Final Results of Antidumping Duty Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty review.

SUMMARY: On November 6, 2001, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on creatine monohydrate from the People's Republic of China. We gave interested parties an opportunity to comment. Based upon our analysis of the comments and information received, we have made changes to the margin calculations presented in the final results of the review. We find that creatine monohydrate from the People's Republic of China was not sold in the United States below normal value.

EFFECTIVE DATE: March 11, 2002.

FOR FURTHER INFORMATION CONTACT: Blanche Ziv, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4207.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce's ("the Department") regulations are to 19 CFR part 351 (2000).

Background

On November 6, 2001, the Department published in the **Federal Register** the preliminary results of its administrative review of creatine monohydrate ("creatine") from the People's Republic of China ("PRC") (*Creatine Monohydrate from the People's Republic of China; Preliminary Results of Antidumping Duty Administrative Review*, 66 FR 56054 (November 6, 2001) ("*Preliminary Results*"). We received a case brief from the respondent, Blue Science International Trading (Shanghai) Co., Ltd. ("Blue Science"), on December 6, 2001. The petitioners did not submit a case brief.

The Department has now completed the antidumping duty administrative review in accordance with section 751 of the Act.

Scope of Order

The product covered by this order is creatine monohydrate, which is commonly referred to as "creatine." The chemical name for creatine monohydrate is N-(aminoiminomethyl)-N-methylglycine monohydrate. The Chemical Abstracts Service ("CAS") registry number for this product is 6020-87-7. Creatine monohydrate in its pure form is a white, tasteless, odorless powder, that is a naturally occurring metabolite found in muscle tissue. Creatine monohydrate is provided for in subheading 2925.20.90 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading and the CAS registry number are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.

Period of Review

The period of review ("POR") is from July 30, 1999 through January 31, 2001.

Comparisons

We calculated export price and normal value based on the same methodology used in the *Preliminary Results* with the following exceptions:

- We have valued certain inputs using domestic prices in India rather than import prices;
- We have corrected a ministerial error made in valuing one input.

Analysis of Comments Received

All issues raised in Blue Science's case brief are addressed in the March 6, 2002, Issues and Decision Memorandum ("Decision Memorandum") which is hereby adopted by this notice. Attached to this notice as an appendix is a list of the issues which Blue Science has raised and to which we have responded in the Decision Memorandum. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, Room B-099 of the Department. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/summary/list.htm>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of the Review

We will instruct the Customs Service to liquidate entries of the subject

merchandise from Blue Science during the period July 30, 1999 through January 31, 2001 without regard to antidumping duties. All other entries of the subject merchandise during the POR will be liquidated at the antidumping rate in place at the time of entry.

Furthermore, the following deposit rates will be effective upon publication of these final results for all shipments of creatine from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) For Blue Science, which has a separate rate, no antidumping duty deposit will be required; (2) for a company previously found to be entitled to a separate rate and for which no review was requested, the cash deposit rate will be the rate established in the most recent review of that company; (3) for all other PRC exporters the cash deposit rate will be 128.63 percent, the PRC-wide rate established in the less than fair value ("LTFV") investigation; and (4) for non-PRC exporters of subject merchandise from the PRC, the cash deposit rate will be the rate applicable to the PRC supplier of that exporter. These deposit rates shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 6, 2002.

Faryar Shirzad,
Assistant Secretary for Import
Administration.

Appendix

List of Comments in the Issues and Decision Memorandum

Comment 1: Use of Import Prices v. Domestic Prices in India to Value Certain Inputs

Comment 2: Adjusting CIF Import Values to Remove International Freight

Comment 3: Correction of Ministerial Error

BILLING CODE 3510-DR-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 030602D]

Antarctic Marine Living Resources Convention Act of 1984; Conservation and Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final notice.

SUMMARY: At its Twentieth Meeting in Hobart, Tasmania, October 22 to November 2, 2001, the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR), of which the United States is a member, adopted conservation measures, pending members' approval, pertaining to fishing in the CCAMLR Convention Area in Antarctic waters. These have been agreed upon in accordance with Article IX of the Convention for the Conservation of Antarctic Marine Living Resources (the Convention) and are in effect with respect to the United States.

ADDRESSES: Copies of the CCAMLR measures and the framework environmental assessment may be obtained from the Assistant Administrator for Fisheries, NOAA, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Robin Tuttle, 301-713-2282.

SUPPLEMENTARY INFORMATION: See 50 CFR part 300, subpart G—Antarctic Marine Living Resources, and 67 FR 2477 (January 17, 2002).

The measures restrict overall catches and bycatch of certain species of fish, krill, squid, and crab; limit participation in several exploratory fisheries; restrict fishing in certain areas and to certain gear types; set fishing seasons; allow

vessels in longline fisheries in Subarea 48.6 south of 60°S to use experimental line-weighting trials; amend and clarify the catch documentation scheme for *Dissostichus* species; amend a previously adopted measure relating to licensing and inspection obligations of Contracting Parties and cooperation between Contracting Parties; and amend a previously adopted measure on the use of automated satellite-linked vessel monitoring systems (VMS) on Contracting Party vessels fishing in the Convention Area.

In addition, the Commission adopted a resolution addressing toothfish harvests questionably attributed to FAO statistical area 51 in the Indian Ocean.

The measures and resolutions were announced by the Department of State by a preliminary notice in the **Federal Register** on January 17, 2002 (67 FR 2477). Public comments were invited, but none were received. Through this notice, NMFS notifies the public that the United States has accepted the measures adopted at CCAMLR's Twentieth meeting, and that pursuant to the Convention and 16 U.S.C. 2431 *et seq.*, these measures are in effect. For the full text of the measures adopted, see 67 FR 2477, January 17, 2002. NMFS provides the following summary of the measures as a courtesy.

The Commission adopted a uniform fishing season of December 1 through November 30 for all Convention area fisheries, except as otherwise specified, e.g., to protect Convention Area species during spawning and breeding seasons. This measure includes a change in the season for krill fishing from the July 1 to June 30 season previously adopted by the Commission.

The Commission prohibited the fishery for *Champsocephalus gunnari* in Statistical Subarea 48.3 within 12 nautical miles of the coast of South Georgia from March 1 to May 31, 2002 during the *C. gunnari* spawning period and adopted a requirement that all fishing vessels taking part in the fishery in the non-restricted area during this period conduct a minimum of 20 research hauls as set out in an annex to the *C. gunnari* conservation measure.

Participation in the Convention Area crab fishery continues to be limited to one vessel per Commission member. Applications for a crab permit must be received no later than 90 days prior to intended harvesting and will be considered in the order of application. If there are multiple applicants, the one U.S. crab permit will be issued on the basis of (1) order of receipt of applications (2) criteria for harvesting permits appearing in 50 CFR 300.112 (3) willingness to participate in CCAMLR
