

Extension of Preliminary Results of Reviews

We determine that it is not practicable to complete the preliminary results of these reviews within the original time limits. Therefore, we are extending the time limits for completion of the preliminary results until no later than July 30, 2002. See Decision Memorandum from Melissa Skinner to Bernard Carreau, dated March 1, 2002, which is on file in the Central Records Unit, B-099 of the main Commerce Building. We intend to issue the final results no later than 120 days after the publication of the notice of preliminary results of these reviews.

This extension is in accordance with section 751(a)(3)(A) of the Act.

March 4, 2002

Bernard Carreau,

Deputy Assistant Secretary Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-580-829]

Stainless Steel Wire Rod from Korea; Amended Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Amended Final Results of Antidumping Duty Administrative Review.

SUMMARY: We are amending our final results of the administrative review of the antidumping duty order on stainless steel wire rod from the Republic of

Korea, published on February 13, 2002 (Stainless Steel Wire Rod from Korea; Final Results of Antidumping Duty Administrative Review, 67 FR 6685 (February 13, 2002) (Final Results)), to reflect the correction of a ministerial error made in the final results. This correction is in accordance with section 751(h) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.224(e) of the Department of Commerce's (the Department's) regulations. The period covered by these amended final results of review is September 1, 1999 through August 31, 2000.

EFFECTIVE DATE : March 12, 2002.

FOR FURTHER INFORMATION CONTACT:

Alexander Amdur or Karine Gziryan, AD/CVD Enforcement, Office 4, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., N.W., Washington, D.C. 20230; telephone: (202) 482-5346 or 482-4081, respectively.

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR part 351 (2000).

Background

On February 13, 2002, the Department published the final results of the administrative review of the antidumping duty order on stainless steel wire rod from the Republic of Korea. See Final Results.

On February 12, 2002, we received a timely allegation from Changwon

Specialty Steel Co., Ltd. (Changwon) and Dongbang Special Steel Co., Ltd. (Dongbang) (collectively, respondents) that the Department made a ministerial error in the final results of review. The petitioner did not submit any comments in reply to this ministerial error allegation.

Scope of Review

For purposes of this review, SSWR comprises products that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons or other shapes, in coils, that may also be coated with a lubricant containing copper, lime or oxalate. SSWR is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are manufactured only by hot-rolling or hot-rolling annealing, and/or pickling and/or descaling, are normally sold in coiled form, and are of solid cross-section. The majority of SSWR sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar. The most common size for such products is 5.5 millimeters or 0.217 inches in diameter, which represents the smallest size that normally is produced on a rolling mill and is the size that most wire-drawing machines are set up to draw. The range of SSWR sizes normally sold in the United States is between 0.20 inches and 1.312 inches in diameter.

Two stainless steel grades are excluded from the scope of the review. SF20T and K-M35FL are excluded. The chemical makeup for the excluded grades is as follows:

SF20T.			
Carbon	0.05 max	Chromium	19.00/21.00
Manganese	2.00 max	Molybdenum	1.50/2.50
Phosphorous	0.05 max	Lead-added	(0.10/0.30)
Sulfur	0.15 max	Tellurium-added	(0.03 min)
Silicon	1.00 max		
K-M35FL.			
Carbon	0.015 max	Nickel	0.30 max
Silicon	0.70/1.00	Chromium	12.50/14.00
Manganese	0.40 max	Lead	0.10/0.30
Phosphorous	0.04 max	Aluminum	0.20/0.35
Sulfur	0.03 max		

The products subject to this review are currently classifiable under subheadings 7221.00.0005, 7221.00.0015, 7221.00.0030, 7221.00.0045, and 7221.00.0075 of the Harmonized Tariff Schedule of the

United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this review is dispositive.

Amendment of Final Results

The respondents contend that in the Final Results, and accompanying Decision Memo at Comment 8, the Department agreed with the respondents' argument that the

Department should replace the variable costs of manufacturing (VCOMs) and total costs of manufacturing (TCOMs) based on semiannual costs that are reported on the sales databases with the VCOMs and TCOMs based on annual costs that are reported on the cost database. The respondents allege that the Department correctly implemented this change for the VCOMs and TCOMs reported on the U.S. sales database, but erred by failing to make the same adjustment to the VCOMs reported on the home market sales database.

After reviewing our calculations, we found that we inadvertently failed to make this adjustment to the VCOMs reported on the home market sales database, and have determined that this error constitutes a ministerial error as defined by 19 CFR 351.224(f). We have corrected this error in accordance with 19 CFR 351.224(e) by adopting the respondents' suggested programming language. For further details, see Calculation Memorandum dated March 4, 2002.

Amended Final Results

As a result of our review and the correction of the ministerial error described above, we have determined that the margin for the collapsed entity Pohang Iron and Steel Co., Ltd. (POSCO)/Changwon/Dongbang is 5.61 percent.

Assessment

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. The Department will issue appraisal instructions directly to the Customs Service. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates in the manner described in the Final Results, 67 FR at 6687.

Cash Deposit Requirements

Upon publication of this notice of amended final results of this administrative review, for all shipments of stainless steel wire rod from Korea entered, or withdrawn from warehouse, for consumption on or after publication date of the amended final results of this administrative review, as provided by section 751(a)(1) of the Act, the cash deposit rate for POSCO/Changwon/Dongbang will be the rate established in these amended final results of this administrative review.

We are issuing and publishing this amendment to the final results in accordance with section 751(h) of the Act.

March 4, 2002

Faryar Shirzad,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Applications for the Malcolm Baldrige National Quality Award

ACTION: Proposed collection; Comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A).

DATES: Written comments must be submitted on or before May 13, 2002.

ADDRESSES: Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6608, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to JoAnne M. Surette, Baldrige National Quality Program, Administration Building, Room 623, 100 Bureau Drive, Stop 1020, National Institute of Standards and Technology, Gaithersburg, MD 20899-1020, telephone (301) 975-5267, fax, (301)948-3716, e-mail joanne.surette@nist.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Department of Commerce is responsible for the Baldrige National Quality Program and the Malcolm Baldrige National Quality Award. NIST, an agency of the Department's Technology Administration, manages the Baldrige Program. Applicants for the Malcolm Baldrige National Quality Award are required to perform two steps: (1) The applicant organization certifies that it meets eligibility requirements; and (2) the applicant organization prepares and completes an application form and the application

process. The Malcolm Baldrige National Quality Award Program Office will assist with or offer advice on any questions or issues that the applicant may have concerning the eligibility process or in completing the self-certification forms. NIST will use the application package to assess and provide feedback on the applicant's quality and performance practices.

II. Method of Collection

Applicants must comply in writing according to the *Baldrige Award Application Forms* booklet.

III. Data

OMB Number: 0693-0006.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for profit organizations, and not-for-profit institutions.

Estimated Number of Respondents: 100.

Estimated Time Per Response: 100 hours.

Estimated Total Annual Burden Hours: 10,000 hours.

Estimated Total Annual Cost to the Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they will also become a matter of public record.

Dated: March 7, 2002.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
